

# Bathroom Concepts

Product & price guide 2023

# We work harder to make your life easier. That's very hansgrohe

## A name you can trust

High manufacturing standards and quality customer service ensure trouble-free installations.

## Engineered for excellence

We focus on the smallest details, uniting German engineering with rigorous testing.

## Less is more

We've helped reduce water consumption in the shower since 1987.

## Designed for life

Outstanding design outlasts short-lived trends. We create timeless products that promise a long service life.

## Over 100 years behind it and many more ahead of it

For over 120 years, hansgrohe has been developing forward-thinking designs and clever bathroom solutions.

## Our name is your guarantee

All products carry a minimum 5 year manufacturing guarantee inc. parts and labour.

Spare parts held for 15 years after product discontinuation.

## Next day delivery on fast-moving products

We understand that sometimes you need products quickly. That's why we carry many products in our UK warehouse that are available for next day delivery.\*

\*For more information on next day delivery visit [www.pro.hansgrohe.co.uk](http://www.pro.hansgrohe.co.uk)  
Next Day delivery is subject to stock availability please ask our hansgrohe customer service advisors when placing your order.

# Hansgrohe: quality you can count on

At Hansgrohe we create top quality products that deliver in both form and function, so you can enjoy them for a long time to come.

We apply rigorous tests and stringent guidelines in our development and production, and that's validated by the independent testing institutes that attest to our high quality workmanship.

### **Quality is infused into every hansgrohe product**

Before our products are ready for production, they have to prove themselves thousands of times in test cycles, stress tests and field tests. Highly qualified employees see to meticulous quality assurance and quality management at every point.

### **Manufacturing quality**

Hansgrohe relies on top-quality materials, high-tech design and precision work. Hansgrohe understands “quality workmanship” means more than just the materials. It’s the basis of our four pillars of quality: product, design, manufacturing and service.

**5**

**YEAR**  
PRODUCT  
GUARANTEE

All products carry a minimum 5 year manufacturing guarantee inc. parts and labour.

**15**

**YEAR**  
PARTS AVAILABILITY  
GUARANTEE

Spare parts held for 15 years after product discontinuation.

# Our commitment to a sustainable future

At hansgrohe we are constantly investing in sustainable processes and developing products that reduce energy and water consumption without any loss in performance.

That is why over **70% of our products have an EcoSmart variant.**

Meaning that you can shower from as little as **6 l/min**, using up to

**60% less water** without compromising on performance.

**AirPower** technology enables our mixers to use as little as **4.5 l/min** whilst maintaining great performance. By drawing in the air via the jet outlet it enriches the incoming water, making the jet fuller, lighter and softer. **Delivering a high jet volume with less water.**

**CoolStart** technology is available on some of our mixers and **reduces energy consumption** by the mixer **being on cold when in the central position**, avoiding the use of pumped hot water unnecessarily. This can save the end user up to £52 a year.

# Developer concepts

## **Introducing the new bathroom concepts from hansgrohe.**

We have now made it easier for you to select your ideal combination of hansgrohe showers and taps. On the following pages you will find a number of specially curated bathroom concepts. Each one a thoughtful expression of design, function and performance that is synonymous with the hansgrohe brand.

# We don't just keep up with technology - we pioneer it

From the big picture to the smallest detail, we welcome every opportunity to enhance your showering experience by integrating technical innovation wherever and whenever it will function best. The icons are here to introduce you to the latest hansgrohe advances. They are your guide to discovering just how much hansgrohe can enhance your comfort and enjoyment in the bathroom.

## Spray modes

A unique shower experience thanks to the soft caress of micro droplets.

Ideal for rinsing out shampoo quickly and thoroughly.

Air-enriched drops from a large, wide jet to wash your cares away.

Invigorate your muscles and set yourself up for the day with the powerful IntenseRain water spray.

The gentle SoftRain water spray gently wraps itself around the body. A treat for the skin – and for the soul.

The all-purpose tool for quick results: the revitalising spray lives up to its name.

Focused jet for soothing, feelgood shower.

The concentrated spray simply massages away the exertions of the day.

A concentrated spray, creating a wellness treatment for the home bathroom.

Crystal clear and economical, without added air. Ideal for quickly filling large containers and preventing splashing.

Economical and cleansing. Also perfected for fast spraying at the sink.

Full, lighter and softer droplets from an aerated spray, thanks to AirPower technology.

## Technologies

Use the Select button to switch spray modes or shower heads; switch off the water at the mixer.

When the handle is in the neutral position, cold water flows automatically.

Mixers and showers use up to 60% less water than conventional products.

Consumes as little as 4 l/min at 3 bar with a specialised flow limiter, water is enriched with air for fuller, plumper droplets.

Enriching water with air produces plump droplets for a velvety touch on the skin.

CoolContact prevents the thermostatic mixer from getting too hot and prevents painful scalding.

Evenly distributes the water over the large spray face to envelope the whole body.

Remove limescale deposits quickly and easily with flexible silicone nozzles.

Defines the space between the wash basin and mixer. The larger the ComfortZone, the greater the variety of uses.

Quality performance on a minimum of 0.2 bar pressure.

With the adjustable shower head, the water jet can be adjusted individually.

With just one hand the shower holder can be freely adjusted in height.

Products meet regulation 4, part 2 of the Water Supply Regulations.

Suitable for use with combination boilers, subject to the manufacturers performance specifications.

Install with confidence, knowing that once fitted correctly you can forget about call backs.

Products meet regulation 4, part 2 of the Water Supply Regulations.
