ABOUT CATALANO

“Quality is taken as a moral commitment at every stage of our manufacturing process”

Catalano

Founded in 1967, Catalano is a family run company based near Rome with a rich heritage. Catalano is proud to be a leading manufacturer and exporter of Italian ceramics.

The impressive Fabbrica di Roma factory plant has 70,000 sqm of offices and production departments are built on a total of 170,000 sqm. Here, the vision is innovative design and sanitary ware of a superior quality with respect for the environment being a key consideration.

Cutting edge technology is used in combination with traditional Italian craftsmanship for the finest ceramic collections. Sanitary ware collections are defined by their iconic designs, unmistakable quality and Italian sophistication.

Catalano's global reputation for excellence in ceramics is demonstrated in numerous projects around the world, as well as by awards received in recognition of its achievements.

CATALANO AROUND THE WORLD

Catalano is distributed in over 100 countries with ceramic collections featured in prestigious projects around the world.

Antibacterial protection CATAGlaze+

Silver Titanium

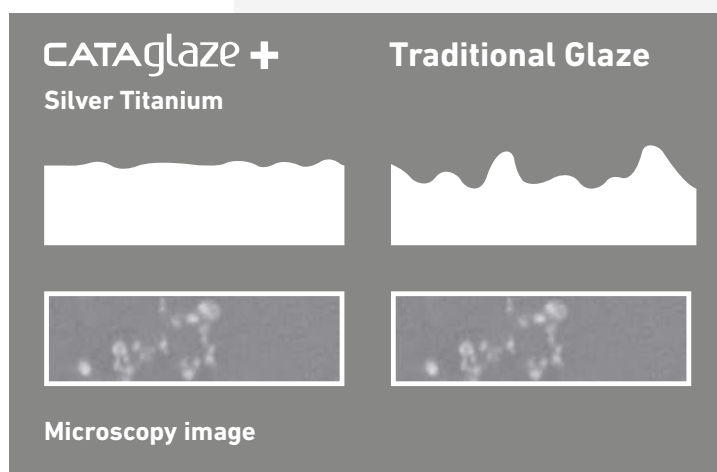

The innovative antibacterial glaze is standard on all Catalano products.

New Cataglaze+ has evolved from Catalano's signature Cataglaze. Cataglaze+ makes ceramic surfaces smoother, resistant to limescale and dirt plus it has a powerful antimicrobial action to kill germs and bacteria. The effectiveness of the new glazing formula is guaranteed by the presence of silver and titanium ions. The antibacterial action is ISO 22196 certified and it is 99.99% effective.

Antibacterial

toilet seat covers

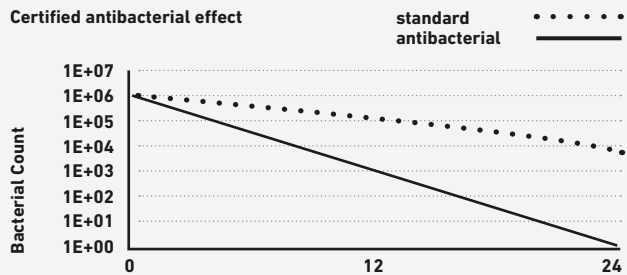

The revolutionary antibacterial formula for all seat covers.*

Catalano seat covers are produced with FDA and EPA registered resins containing silver ions, to inhibit the growth of germs and bacteria. The antibacterial action is ISO 22196/ JIS Z 2801 certified and it is 99.99% effective.

The Catalano brand now means that our products incorporate the latest water saving technologies, easy cleaning ceramic surfaces and the use of high yielding production processes.

Catalano is a member of GBC Italy, the Italian association that works to promote and accelerate the diffusion of sustainability culture, driving the market transformation.

All the industrialization and production stages are technologically advanced, guaranteed by the most advanced plant for processing bathroom fittings in the world.

Washbasins are semi-punched and are stocked with 0 or 1 tap hole. Where there is the option, additional tap holes can be drilled. We provide a drilling service at the cost of £25.00 per tap hole.

SOFTTOUCH & 5G VINYL – PREMIUM VINYL FURNITURE FINISHES

These latest premium vinyl additions to Elements Catalano furniture offer the most up to date vinyl surface finishes available. The SoftTouch finishes are silky smooth and in a range of contemporary colours. 5G woodgrain vinyl brings warm wood tones to life. The textured concrete finish in the collection has a unique and urban look. SoftTouch & 5G vinyl finishes are available for the New Light and Progetto furniture collections.

FURNITURE FINISHES

*Ceramic finishes in the Verso furniture collection are only available for the Verso 65 and Verso 55 drawer units.

*Juliette and Sfera Shaker finishes are painted woodgrain as they are manufactured from Solid Ash.

GOLD & SILVER

GOLD & SILVER FINISHES

Gold-white

Silver-white

Catalano has an exclusive production process for applying an outer finish of 18K gold and pure silver on sanitaryware.

These precious finishes are the result of a special vitrification process which gives finishes a much better resistance to abrasions, detergents and thermal shock when compared with a standard glaze.

Unscratchable glaze

Brass basin wastes

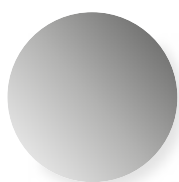

Basin wastes, designed for a perfect integration to the washbasin, are made of ceramic treated with Cataglaze®+. They are available in the same 4 satin colours of the washbasins, or in metal finishes (gold or chrome) to match Gold and Silver washbasins. To install on a ceramic top, basin wastes are provided with stainless steel fixing plates.

EDITION COMBINATIONS

The suspended aluminium structure of the Edition system stands out for its lightness and flexibility. The units feature a state-of-the-art aluminium internal structure. The large drawer features a push-to-open and soft-close system. The Edition collection adapts to all design configurations, from the wall-mounted washbasin to the storage units.

EDITION CERAMIC TOP COMBINATIONS

Edition 65*37

Towel rail

Ceramic Top 150 - 125 - 100 x 50

The Edition 65 washbasin can be positioned on ceramic countertops on the left, centre, or right. All these options create large functional countertops that you can manage based on your needs and taste. You can also place storage units or structures under the Ceramic Top. That's why the Edition collection adapts to all design configurations.

Functionality and compact size

WC's, BIDETS & URINALS

All in One Concept

CATACLEAN

Advanced technology, ease of use, and perfect hygiene merge in a unique concept of smart modularity. This toilet-integrated technological system consists of various elements that can also be separated.

For example, the electronic bidet can be removed for update or maintenance purposes without altering the toilet's functions. This way, the latter can work independently through the patented exhaust system.

Cataclean Technology

CATACLEAN

Cataclean is where Catalano's technology and top-quality ceramic meet. This system includes washing and drying functions through stainless steel water nozzles. It also features self-draining and self-cleaning anti-limescale functions to ensure hygiene and safe maintenance. All functions can be managed from a wall-mounted display.

WC'S, BIDETS
& URINALS

Washing

A high-angle photograph of a white smart toilet with its lid open. The toilet is positioned on a light-colored tiled floor against a white wall. The bowl contains water, and a spray nozzle is visible inside, indicating the washing function is active. On the left side of the toilet's base, there are three small, dark circular buttons. The overall scene is brightly lit, highlighting the clean, modern design of the fixture.

Air drying

A high-angle photograph of the same white smart toilet with its lid open, in a different mode. The bowl is empty of water, and the spray nozzle is retracted. The toilet is on the same light-colored tiled floor against a white wall. The three small buttons on the left side of the base are visible. The lighting is consistent with the previous image, showing the toilet's sleek, white finish.

Toilet Bidet Integrated

CATACLEAN

The only one of its kind, Cataclean provides an easily removable electronic bidet, that can be installed or replaced very easily like a cartridge. It is inserted into the toilet bowl from above and is completely disconnected from its casing and from the seat. The toilet always works, even without the electronic body.

Remote Control

CATACLEAN

Versatile design with a remote-control panel that can be removed and installed on the wall. It's simple and functional. The ring nut and function keys allow you to control all functions easily. The remote-control panel has a touchscreen and lights up thanks to a proximity sensor.
