DRENCH

INSPIRE BY DESIGN

Unit 5 & 6

About us

At DRENCH SHOWERS, we proudly stand as a British manufacturer, setting new standards in shower doors and enclosures. Our distinction lies in our extensive array of colours, finishes, and glass options that effortlessly align with the latest market trends.

The bathroom, once overlooked in the realm of design, has now transformed into a canvas for personal expression. Thanks to the influence of social media platforms like Instagram and Pinterest, people have begun to view their bathrooms as spaces for creative design.

At DRENCH, we don't merely follow trends; we lead the way in redefining bathroom design. Our commitment to innovation, meticulous design, and uncompromising quality manufacturing has culminated in our exceptional product range.

Whether you opt for our standard offerings or seek made-to-measure perfection, DRENCH empowers you with a myriad of choices, ensuring that your shower enclosure remains a unique masterpiece.

The possibilities and combinations are boundless, The only limitation is your imagination.

DRENCH's proprietary manufacturing technique, protected by patent GB2562114 and aptly named the 'Hygienic Decorative Bathroom Partition' under the Patents Act 1977, ensures you receive a one-of-a-kind product.

Our dedication to excellence extends to the careful selection of top-quality raw materials, locally sourced and rigorously tested, in accordance with British Standards BS EN 14428:2015.

Our shower panels and enclosures not only meet British Standards but also comply with the EU Construction Product Directive (EU) 305/201. Testing was conducted under the scope of System 4, enabling us to self-declare conformity for UKCA.

For your peace of mind, UCK/CE Marks are prominently featured on our packaging and assembly instructions for all DRENCH products, and they are readily available for download on our website.

www.drenchshowers.co.uk/company/

Our drivers of sustained values;

Innovation

We aim for innovation on our products and processes. We pursue differentiation and creating a leap in value for both the customer and the company.

Quality

We ensure the best components and materials are used on our products to guarantee a correct performance and long durability. Meeting and exceeding all requirements, standards, and specifications is our ultimate goal.

Integrity

We say what we mean and we mean what we say. We commit to treat everyone equally and communicate openly and honestly.

Customer Service

We dedicate our efforts to uncovering and meeting customer needs, delivering excellent service and incorporating customer feedback into product design and other business decisions.

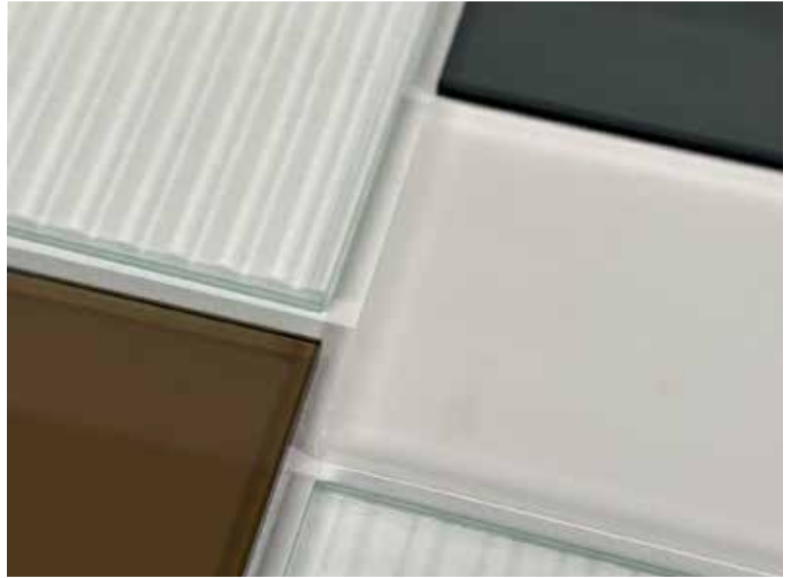

About our Glass

At DRENCH, we elevate your spaces with the finest in safety glass. Our products are crafted from toughened glass, rigorously compliant with BS EN12150-1-2015. All standard products shown in this brochure are manufactured using 8 mm Toughened Clear/Float glass as standard.

Cross Fluted, Fluted, Frosted, Grey Tinted and Bronze glass are also available with an extra surcharge.

Choose from our selection of glass options, each offering a different level of privacy. Explore our unique choices.

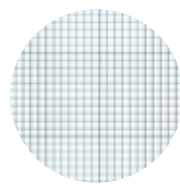

DRENCH products are treated with a special coating applied on the internal face of the shower to allow for easy clean.

Our glass options

Clear Glass
8 mm Toughened
Float glass

Cross Fluted
8.8 mm Toughened
Laminated

Fluted
8.8 mm Toughened
Laminated

Clear glass is always impactful as well as an elegant choice. Both 8 mm and 10 mm thicknesses are available as well as Low iron option.

Glass inside the shower area is completely smooth allowing your screen to be easily cleaned.

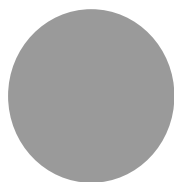

Impactful as well as elegant, Cross fluted is a Clear but semi-transparent glass with intersecting vertical and horizontal reeds creating a fine texture made of little concave squares.

Glass inside the shower area is completely smooth allowing your screen to be easily cleaned.

Our classic Fluted glass adds the vintage chic look and the visual interest to your Shower area. It improves the privacy by creating subtle shifting of light .

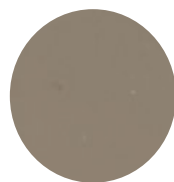

Glass inside the shower area is completely smooth allowing your screen to be easily cleaned.

*Experience a world where
transparency meets privacy*

Grey Tinted
8 mm Toughened
Smoked glass

Smoked grey glass that gives a delicate look to your screen. The grey tint on the glass brings privacy and elegance. With an easy-to-clean interior, embrace both style and practicality in every detail.

Bronze Tinted
10 mm Toughened
Smoked glass

A perfect blend of elegance and functionality. This sleek and sophisticated option, featuring a 10mm bronze-tinted glass adds a touch of warmth and privacy without sacrificing transparency. With an easy-to-clean interior, embrace both style and practicality in every detail.

Frosted
8 mm Toughened
Satin Etched

Frosted is Our most opaque glass option. External side of the glass is satin etched to create the frosted effect. The satin etch process creates a permanent decorative texture that is also scratch and fingerprint resistant. Internal side is completely smooth to be easily cleaned.

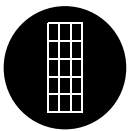

About our Metalwork

DRENCH metalwork is made of Aluminium highest grade. Aluminium is the perfect material for Shower screens as it can be extruded into complex shapes, it is mechanically strong and does not rust.

All our profiles have been specifically designed to offer a wide range of products from Wall Fixed panels, Bath Screens and the most complex range of Shower Doors and Enclosures.

DRENCH prides itself on being the originator of fully framed doors, holding a patent due to our complex and high-quality design. Unique to our fully framed collection is the option to add intricate metalwork patterns on the glass for a touch of exclusivity and privacy.

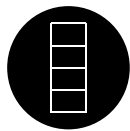

We offer a range of standard designs called 'Collections,' but our laser cutting and frame beading capabilities are limitless, allowing for endless design possibilities.

Our finishes

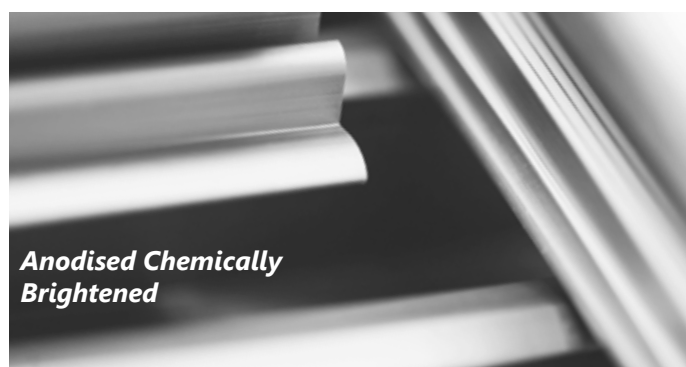

At DRENCH, we're rewriting the rules of color selection. Say goodbye to the pursuit of the 'perfect match' and welcome the era of 'blending.' Blending is all about the art of mixing and combining. Why stress over the elusive perfect match when you can create a bespoke color palette and mood-board that's not only safer but also way more fun?

Enter our world of RAL Colors – available in a sophisticated 30% gloss finish, imparting a sleek matte look that's easy to combine yet endlessly elegant.

Our metalwork is no less exceptional, finished with **Architectural Powder Coating** that ensures a highly durable surface. Designed for external use, it means your shower enclosures can withstand even the busiest family bathroom while maintaining their perfect colors.

Architectural Powder Coating

Anodised Chemically Brightened

In a world where the allure of shiny and polished finishes from the eighties still captivates, our brushed metallic colour range emerges as the perfect accent for any bathroom design.

Our metallic finishes are no ordinary fare – they're the result of a meticulous process known as anodising aluminium. **Anodising** is an electrolytic marvel that bestows an oxide film upon aluminium, enhancing its innate corrosion resistance and safeguarding those enchanting brushed, polished, etched, or brightened surfaces.

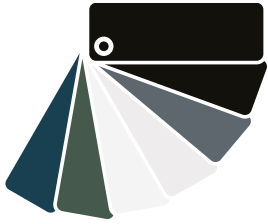

DRENCH fully framed collections - **FRAME Lite, SUZHOU, DECO, BORDER & TOUCHES** - are where stability and style converge. The metal frame wraps around the entire door, top, bottom, and sides, allowing room for creative metal finishes that harmonize with your bathroom's decor, from tiles to brassware.

Sleek and sophisticated, our semi-frameless collection **EDGE** offer a streamlined look with profiles only on the sides, leaving the top and bottom glass bare.

*Enter our world of colours and finishes
and make your bathroom
a canvas of creativity*

MATTE Colours

MATTE Classic

Crafted with architectural powder coating boasting a 30% gloss, these finishes epitomize sophistication and versatility.

Our Classic colors, included in the basic price of the product, draw inspiration from neutral bathroom trends, featuring shades of black, greys, white, and traditional hues like Forest green and grey navy. Rooted in our extensive experience, these classic colors exude timeless charm and command respect, making them a perfect choice for elevating any bathroom design.

Matt Black
RAL 9005

(BK)

*The standard of our bold design.
Black means power & control.
Sophistication & Elegance*

Graphite Grey
RAL 7024

(GG)

*Industrial grey with blue shades,
commonly known as Anthracite.
Solid, Stable & Neutral.*

Blanc
RAL 9002

(BL)

*Offering a sense of peace and calm,
this off white is purity,
innocence and completion.*

Total White
RAL 9003

(TT)

*Similar to its ability to reflect the light,
a full white creates a sense of space
in any room.*

Forest
RAL 6009

(FO)

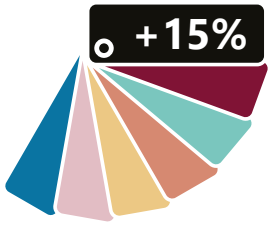

*Sensual, sensitive and warm.
It highlights quality of materials.
Comfort & Structure*

Grey Navy
RAL 5008

(GN)

*It is a deep midnight blue.
Sincerity, Intuition and the
higher mind colour.*

MATTE Pastel

Utilising the same architectural powder coating finish, these colors offer a daring departure from the ordinary, presenting a spectrum of risky and unusual hues.

Available for an additional 15% on top of the basic price, includes captivating shades designed for bold contrasts and seamless blending within your chosen color palette.

These Pastel colors inject personality and creativity into any bathroom space, whether harmonizing with existing tiles or furniture selections.

Rioja Red
RAL 3005

(RR)

*The standard of our bold design.
Black means power & control.
Sophistication & Elegance*

Turquoise
RAL 6034

(TQ)

*Calm and serene.
It is the perfect colour for those looking
for emotional balance in their lives.*

Burnt Orange
RAL 3022

(BO)

*It's a refreshing twist.
Use this bright and bold colour as
an accent to play it safe.*

Lemon Yellow
RAL 1012

(LY)

*Yellow is uplifting and
illuminating, offering hope,
happiness and fun..*

Pale Pink
RAL 3015

(PP)

*Pink is intuitive and insightful,
showing tenderness and kindness
with its empathy and sensitivity.*

Capri Blue
RAL 5019

(CB)

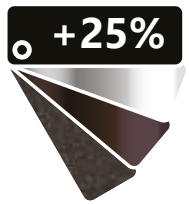

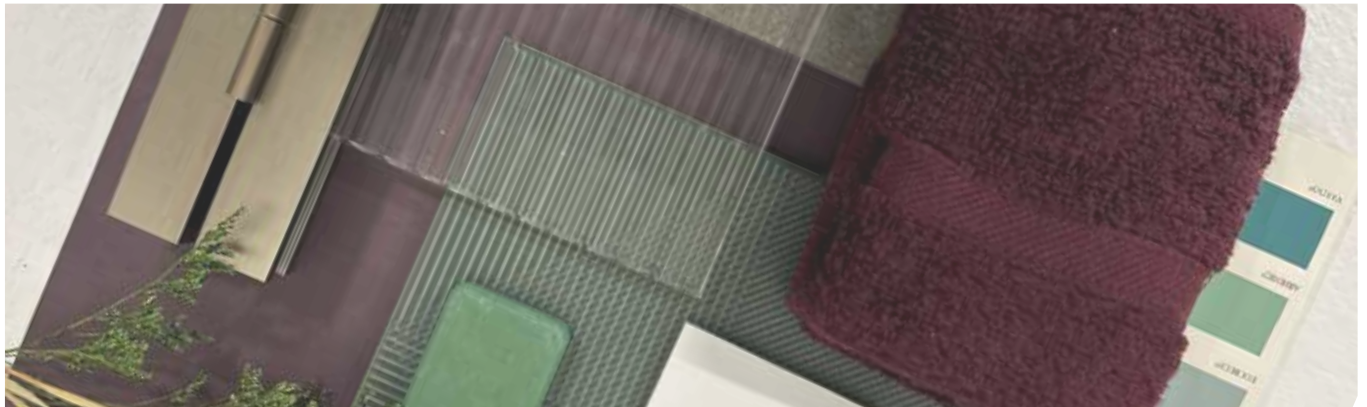

*Mediterranean blue that creates a
wonderfully tranquil space,
heavenly ideal for bathrooms.*

Blending Finishes

In a world bursting with colors, bathroom design has evolved into an exhilarating challenge for interior designers and specifiers. The endless array of finishes and hues in the market presents a delightful conundrum.

At DRENCH, we're rewriting the rules of color selection. Say goodbye to the pursuit of the 'perfect match' and welcome the era of 'blending.'

Blending is all about the art of mixing and combining. Why stress over the elusive perfect match when you can create a bespoke color palette and moodboard that's not only safer but also way more fun?

Blending Finishes

We believe gun metal and bronze metallic finishes are the most popular finishes for this 2024. We have always been especially keen on chrome finishes to return to our design roots and acknowledge their timeless appeal.

In addition to our glass options, we are excited to introduce three new blending finishes: Anodised Gun Metal, Chrome and Antique Bronze. These finishes offer versatility and sophistication, perfect for creating bespoke color palettes and moodboards.

Gun Metal
Anodised

(GM)

Elegant dark gray with a bronze tinge ideal for contrasting colours and bold designs.

****Available from July 2024****

Chrome
Anodised

(CH)

Polished silver anodised that has a lovely mirrored finish making your shower to stand out.

Antique Bronze
Textured PCoating

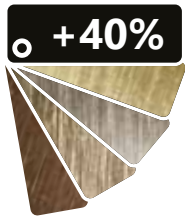

(NZ)

Bronze textured finish that brings heritage as well as elegance. It works both to bring neutrality and contrast.

*Dare to dream in color.
Let your imagination run wild with our
colours and finishes,
where every shade tells a story.*

Metallic Finishes

Metallic Brushed

As the allure of shiny and polished finishes from the eighties continues to captivate, our brushed metallic color range emerges as the perfect accent for modern bathroom designs. Crafted to perfection, our Brushed finishes exude understated elegance and timeless appeal.

Each finish boasts a distinctive texture and subtle luster, adding depth and character to any bathroom space. Elevate your design with these sophisticated metallic hues, creating a luxurious ambiance that stands the test of time.

Brushed Brass
Anodised

(BB)

Elegant, timeless and luxurious yellow-coloured finish.

Brushed Steel
Anodised

(BS)

Driven by industrial chic trend, an impactful yet elegant steel look.

Light Bronze
Anodised

(LB)

Bronze finish in between copper and brass.

Dark Bronze
Anodised

(DB)

Evoking oil rubbed bronze finish, warm and sophisticated.

*Elevate your space
with the subtle sophistication
of our Metallic Finishes*

Metallic Polished

With a nod to traditional bathroom designs, our Polished Brass and Nickel finishes embody timeless elegance and sophistication.

Gleaming with unparalleled radiance, these finishes exude luxury and refinement, transforming any space into a sanctuary of indulgence. Experience the epitome of quality craftsmanship and exquisite design with our Metallic Polished Finishes, where every detail reflects a commitment to excellence and enduring beauty.

Polished Brass
Anodised

(PB)

*What is luxury without
some polished brass involved?*

Polished Nickel
Anodised

(PN)

*Traditionally elegant and timeless.
It is just the accent you need.*

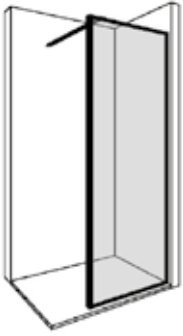

Product Configurations

DRENCH offers a diverse range of standard configurations for your shower area, meticulously designed to meet your needs.

From Wall Fixed Panels to intricate Shower Enclosures, our products adhere to industry-standard dimensions for seamless integration with baths, shower trays, and wetrooms.

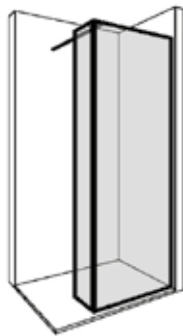

Each configuration features our signature glass options and finishes, ensuring both style and functionality.

While our Collections may not be available for every configuration, our detailed drawings and descriptions will guide you through our product range.

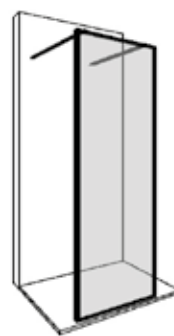

Wall Fixed Panels

Wall Fixed Panels offer a sleek and versatile solution for your shower area. These panels are attached to the wall using our wall channels and support bar system, ensuring stability and durability. With reversible design options, they can be installed on either left or right-hand walls, except for the SUZHOU collection, which are handed due to their unique metalwork design.

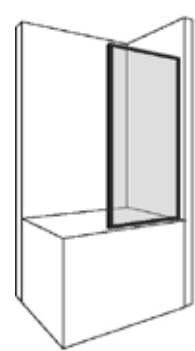

Wall Fixed Panels with Flipper panel

Enhance your shower space with DRENCH's Wall Fixed Panels featuring Flipper Panels. The flipper panel is securely attached to the wall fixed panel using our pivot system, allowing for adjustable swinging from 0 to 180 degrees. Enjoy flexibility and convenience in your shower experience with this innovative design.

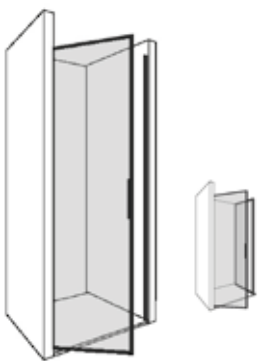

Free Standing panels

Experience freedom and versatility with DRENCH's Free Standing Panels. These panels sit atop wetrooms or shower trays and are anchored to the wall with two support bars, creating a spacious entryway for your shower area. Enjoy the ease of installation and the open design for a seamless shower experience.

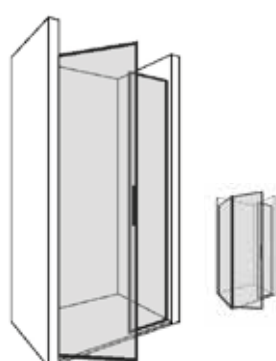

Bath Screens

DRENCH offers Bath Screens in both Fixed and Pivot versions for bath installations. Our Fixed Bath Screens are a compact version of our Wall Fixed Panels, ideal for baths. Additionally, our Pivot Bath Screens feature a 180-degree swinging hinge, enhancing accessibility and functionality in your bath space.

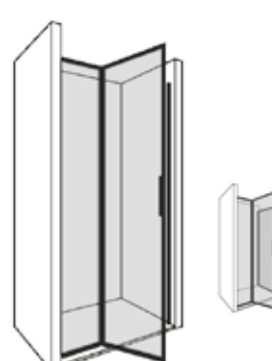

Shower Doors & Enclosures

Discover the sophistication and durability of DRENCH Shower Doors & Enclosures. Our robust designs feature Right or Left-hand hinges, with the handing determined by the hinge position when viewed from the outside.

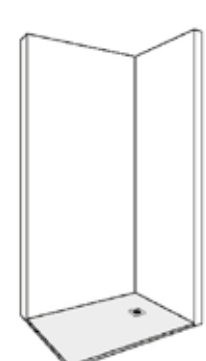

Doors with inline & Enclosures

These doors are hinged to the wall/return panel, closing into the Inline panel. Choose between Right or Left-hand hinges, identified by the hinge position when viewed from the outside.

Doors hinged to inline & Enclosures

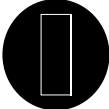

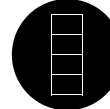

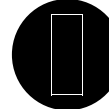

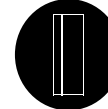

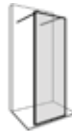

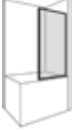

These doors are hinged to the wall/return panel, closing into the Inline panel, closing into the wall/return panel. Select Right or Left-hand hinges, distinguished by the hinge position when viewed from the outside.

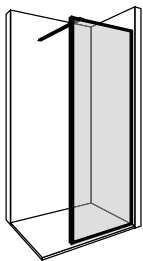

Shower Trays

Slate Textured Shower Trays by DRENCH. Designed to complement our Shower Panels and Enclosures, these trays offer four colour options and various grating styles, inspiring creativity in your bathroom design.

Combinations: Walk-In Showers

DRENCH Shower panels can be used individually or combined to recreate a walk-in shower space.

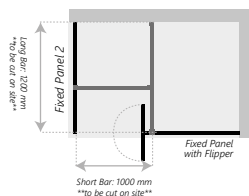

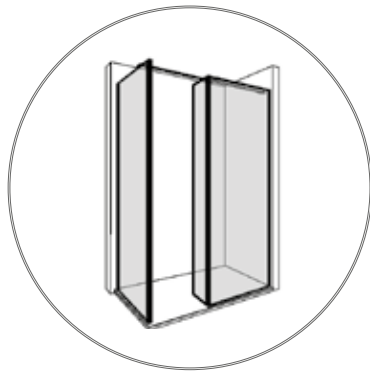

When Shower panels are ordered individually support bars required for installation are included in the price and supplied by DRENCH. When Shower Panels are combined, possibilities are endless hence we have designed a range of accessories suitable for any design or configuration. Please Check Support bar specifications on pricing pages.

For Walk-In showers with Wall Fixed panels, **T Shape support bar (FXSBT-BAR..)** is recommended for installation purposes.

Please note the T BAR includes 2 bars at 1200 and 1000 mm.

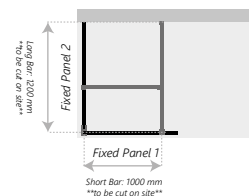

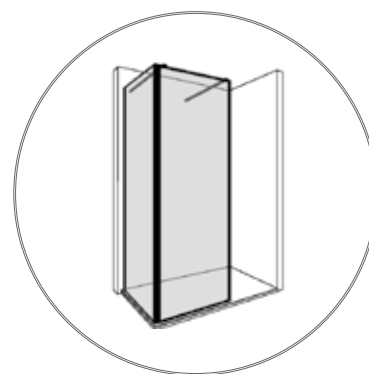

These bars can be trimmed on site to fit most of standard walk in shower dimensions.

For Walk-In showers with Wall Fixed panels and Fixed Panel with Flipper, **T Shape support bar (FXSBT BAR..)** is recommended for installation purposes.

Please note the T BAR includes 2 bars at 1200 and 1000 mm.

These bars can be trimmed on site to fit most of standard walk in shower dimensions.

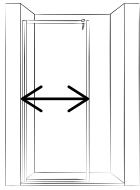

For L-Shape configurations with Wall Fixed panels, **Corner channel (PR758)** and extra **T Shape support bar (FXSBT BAR..)** is recommended for installation purposes.

Please note the T BAR includes 2 bars at 1200 and 1000 mm.

These bars can be trimmed on site to fit most of standard walk in shower dimensions.

Bath Screens

There is really nothing better than a nice long soak in the tub after a long and stressful day.

Fixed Bath screen are a reduced version of our Wall fixed panels suitable to be installed onto a bath. This configuration ticks the box for small bathrooms.

Pivot Bath Screens are hinged to the wall and swing 180 degrees. Pivot bath screens are handed so make sure you choose the Left or Right hand code when ordering. There is a 10 mm gap between the bottom profile and the top of the bath to allow the pivot mechanism work. A black rubber seal is supplied with the screen to cover the gap and guarantee watertight conditions.

MATTE Colours Door Features
(Architectural powder coating)

Metallic Finishes Door Features
(Anodised finishes)

Crafted with precision, our pivot hinge mechanism features a zinc pivot casting for durability. Designed to provide a smooth swing and closing action, it offers a robust 5mm rise and fall for seamless operation.

Powder coated folded 3 mm aluminium mechanically fixed to closing profile of the door. It is 225 mm long and positioned at 1050 mm from the floor.

Hinges are rebated on profiles, so they are flush to the edge. The 3 mm gap in between is covered with 2 single clipping seals with a deflector that stops water coming through.

Based on the same concept of a pull handle the shape brings the accent to it. It is 150 mm long and positioned at 1050.

Shower Enclosures:
Door with Return Panel

Shower doors may be paired with a range of Return/Side Panels to create Shower Cubicles. Return panels must be ordered with the door to make sure adjustment range is correct and guarantee a perfect fit.

If you want to create a Shower Enclosure please follow the steps shown on pricing pages.

Please note Across support bar will be included on price if Doors are ordered together with a return panel for stability purposes.

Crafted with precision, our pivot hinge mechanism features a zinc pivot casting for durability. Designed to provide a smooth swing and closing action, it offers a robust 5mm rise and fall for seamless operation.

Powder coated folded 3 mm aluminium mechanically fixed to closing profile of the door. It is 225 mm long and positioned at 1050 mm from the floor.

Hinges are rebated on profiles, so they are flush to the edge. The 3 mm gap in between is covered with 2 single clipping seals with a deflector that stops water coming through.

Based on the same concept of a pull handle the shape brings the accent to it. It is 150 mm long and positioned at 1050.

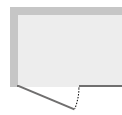

Shower Enclosures:
Door with Inline & Return Panel

Doors with inline panel may be paired with a range of Return/Side Panels to create Shower Cubicles. Return panels must be ordered with the door to make sure adjustment range is correct and guarantee a perfect fit.

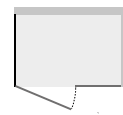

If you want to create a Shower Enclosure please follow the steps shown on pricing pages.

Please note Accross support bar will be included on price if Doors are ordered together with a return panel for stability purposes.

TOUCHES Collection

MATTE Colours and Metallic finishes merge seamlessly in our TOUCHES Collection offering a high level of customisation.

We want to manufactured your favourite choice of MATTE and metallic finishes. It is all about matching and we know it.

Shower Door frames and spare parts are finished in a MATTE Colour using architectural powder coating and the little touches like Hinges and Pull Handle are finished in Metallic.

BASE

SHOWER TRAYS COLLECTION

Exclusively designed for DRENCH Showers by one of the most reputed shower tray manufacturers in the European Bathroom Industry. BASE collection presents our range of slate textured shower trays to match and be used along with our Shower Panels and Enclosures.

The Shower Trays main component is polyurethane resin. This is a material of high quality, resistance, durability and elasticity. Its impact resistance and its resistance to bending, make the tray durable and resistant to breakage.

Easy to customise

BASE Shower Trays can be cut along both the length and width. They can be cut up to three times to adapt to spaces such as columns or projections. Cutting tools like jig saws or angle grinders with diamond blades are suitable for the job.

Bacterial Resistant

The coating technology used during manufacturing gives unique qualities which help the surface with fungicidal, antibacterial and hydrophobic properties. As a result, the shower trays are not only easy cleanable, but also actively help to keep surfaces decontaminated.

Easy to Install

BASE Shower trays can be installed flat to tiles, on top of flooring or even using a raising up. Shower tray thickness of 25 mm contributes to an easy installation plus offers versatility of suitable scenarios.

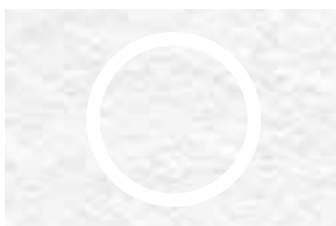

Non-Slip Surface

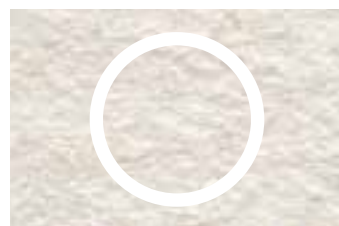

BASE Shower Trays have a matte, non-slip surface which is given by the texture and material used. Effectively preventing slip hazards.

Bespoke Service

DRENCH prides itself on its bespoke approach, crafting each piece to perfection according to your specifications.

Whether it's a simple adjustment in dimensions or the creation of a complex shower enclosure, we're here to bring your vision to life.

Our cutting-edge manufacturing facilities in the UK enable us to offer a comprehensive made-to-measure service, ensuring prompt delivery without compromising on quality.

Explore the endless possibilities with DRENCH. From custom glass options to fabric interlayers, we provide a range of materials and finishes to suit your unique style and preferences.

Our catalogue not only inspires your design but also showcases our unmatched capabilities. In addition to standard offerings, we cater to specialized needs, including products suitable for steam rooms and other bespoke requirements.

Simply provide us with your specifications, and we'll create a bespoke quote and drawing tailored to your exact needs. Your satisfaction is our priority, and we're committed to delivering exceptional service every step of the way.

If the dimensions or configurations in our catalogue don't meet your requirements, don't hesitate to reach out to us and we'll work closely with you to customize a solution that exceeds your expectations. sales@drenchshowers.co.uk

Accessories & Parts

At DRENCH, we're committed to ensuring your experience is hassle-free and user-friendly. Every item is meticulously crafted to include all necessary components, guaranteeing optimal performance and seamless installation.

All our products are proudly manufactured in the UK and dispatched from our premises in Hampshire, where we maintain rigorous traceability and quality control standards.

As part of our quality assurance process, we provide photographic documentation of each dispatched item, showcasing all components before final packaging.

We strongly advise checking all deliveries for damages or discrepancies within 48 hours of receipt. Each item is labelled with a unique SO number on both the front and side of the box for easy reference when contacting us for assistance.

This section is dedicated to assisting you with any after-sales issues, from missing components to dimensional discrepancies. Rest assured, our team is here to support you every step of the way, please contact us on sales@drenchshowers.co.uk.

Support Bars & Components

All DRENCH items are supplied with the necessary support bars specified in the item description within this catalogue. For additional support bars, please refer to the individual product listings or contact us at sales@drenchshowers.co.uk.

The table below outlines the compatibility of each support bar with different product configurations.

	Wall Fixed Panels	Wall Fixed Panels with Flipper	Free Standing Panels	Fixed Panel Combination	Single Doors & with Return	Door with Inline	Door hinged to Inline	Shower Enclosures	Bath Screens (Pivot & Fixed)
FXSBCRS Support Bar Access	✓ *For Units > 1000 mm width	✓	✓ *2 x FXSBCRS per panel	✗	✗	✗	✗	✓ *Only for Single Door + Return	✗
FXSBNGL 90° Angle Support Bar	✓ *From 400 to 500 mm width	✗	✗	✗	✗	✓ *For Units < 1000 mm width	✓ *For Units < 1000 mm width	✗	✓ *Optional for Fixed version
FXSBPRL Parallel Support Bar	✗	✗	✗	✗	✗	✓ *For Units > 1000 mm width	✓ *For Units > 1000 mm width	✗	✗
FXSDBDL Return Panel Support Bar	✗	✗	✗	✗	✗	✗	✗	✓ * For Door + Inline + Return	✗
FXSBTBAR T Shape Support Bar	✗	✗	✗	✓	✗	✗	✗	✗	✗

For EDGE Collection Semi-Frameless panels support bars FLS please check page 59.

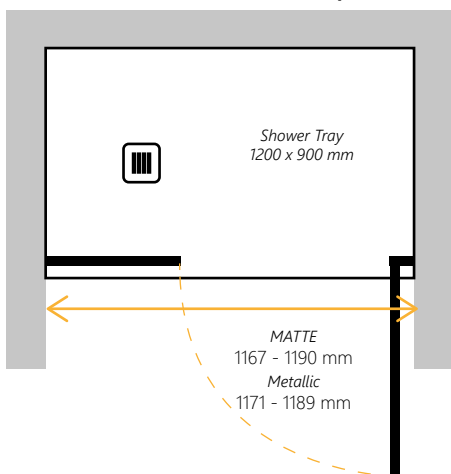

Extension Profiles

DRENCH products always include the required profiles for installation. These profiles can also be purchased separately for instances where on-site dimensions require adjustments or when multiple panels need to be joined together. Please refer to the adjustment range specified in the catalogue before placing your order.

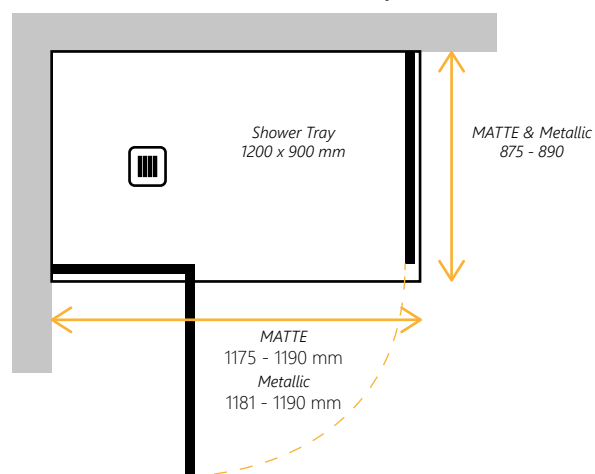

The adjustment range gives a minimum and a maximum point as per shown on illustration on the right. The adjustment range is basically the room you have to play on site. All panels and shower doors are designed to be used with shower trays so please note our standard mid point will never reach the full shower tray dimension. See illustration below:

Adjustment range in a recess (1200 mm used as example)

Adjustment range for enclosures (1200 x 900 mm used as example)

The below list of profiles are helpful when units on site do not fit due to wrong dimensions specified. Please add the 2 digits code for your finish and apply relevant %. Please contact us on sales@drenchshowers.co.uk so we can assist on the issue.

Item Code	Description	Specification	Basic Price EXC Vat
PREXT145..	Extended Wall Channel (+/- 14.5 mm Adjustment) Deeper wall channel to extend shower unit width.		£154
PREXT400..	Extended Wall Channel (+40 mm on width) Box Section to extend shower unit width.		£168
PR758..	Corner Channel Profile to combine for Walk In Shower panels & Shower Enclosures.		£137

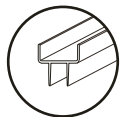

Accessories & Parts

Shower Door Seals & Thresholds

To ensure a watertight installation, all DRENCH items come complete with the necessary seals and threshold components. It's essential to follow DRENCH assembly instructions to ensure proper functionality.

In the event of damage or loss during installation, seals and threshold bits are available for individual purchase. For any inquiries or assistance, please don't hesitate to contact us at sales@drenchshowers.co.uk

Seals

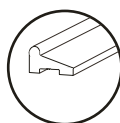

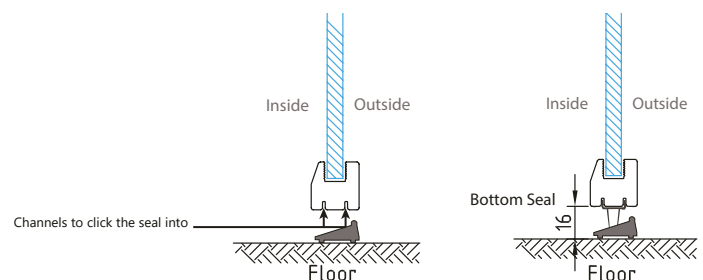

Item Code	Description	Basic Price EXC Vat
SEALBAT	Rubber Seal for Pivot Bath Screen **PLEASE SPECIFY VISIBLE GLASS BEFORE ORDERING**	£22
SEALFLIP	Rubber Seal for Flipper Panel **PLEASE SPECIFY VISIBLE GLASS BEFORE ORDERING**	£12
SEALDOR	Rubber Seal for Door (Single or paired with Inline panel) **PLEASE SPECIFY VISIBLE GLASS BEFORE ORDERING**	£22

✦ Installing DRENCH seals

Open your door, bath panel or flipper panel fully.

Underneath the bottom profile you should find 2 grooves that go from the closing post to the hinge profile.

Please click the seal into these grooves and make sure the whole piece is clicked in along the profile.

Threshold bit

Item Code	Description	Basic Price EXC Vat
THRL.. THRL..	Threshold for Shower door **PLEASE DOOW WITH AND HANDING (LH or RH) BEFORE ORDERING** Add 2 digits code for the colour/finish of your door	£57

DRENCH shower doors are equipped with threshold bits to prevent water leakage from the shower area. While these bits are included with every door, replacements are available for separate purchase in various colours and finishes to match your shower door. Simply provide the two-digit code for your desired colour/finish when ordering.

For further details or assistance, please contact us at sales@drenchshowers.co.uk.

Maintenance & Cleaning

Profiles & Aluminium Frames

The best method of cleaning is using a **mild detergent solution with warm water**. A sponge or soft cloth should be used and nothing should be harsher than natural bristle brushes.

Glass

There is an **Easy Clean coating** to the internal face of the glass only.

Please be advised that on occasions there may be mist to this face. This can be easily removed with a dry, lint free cloth. For daily cleaning we recommend to use a conventional glass cleaner and a squeegee, especially for the internal side.

We recommend regularly wiping your product with a lint free soft cloth.

You may like to use a squeegee to remove water splash.

Should you wish to use a bathroom cleaner, it should be a mild detergent only and ensure it is rinsed thoroughly with clean water.

Never use any solvents, abrasive cleaners or cloths or anything containing bleach.

Warranty Terms & Conditions

WARRANTY TERMS

DRENCH products have warranty against faulty materials or workmanship. Shower Panels, Doors and Enclosures in Metallic Finishes have lifetime warranty. Shower Trays and Shower Panels, Doors and Enclosures in Matte colours or RAL options have 5 years warranty.

The following rules apply:

- * Proof of purchase in the form a receipt or invoice is required in order to validate the guarantee. In the event that a product is faulty the defect must be notified to our technical department within 30 days of the fault happening. (sales@drenchshowers.co.uk)
- * The product has been purchased in one of our authorised stockist for normal domestic use and it was not purchased as ex-showroom display. The product has not been handled carelessly or misused and has not been wilfully damaged, neglected or used in abnormal conditions. The product has not been modified, altered or transformed in any way.

- * The guarantee will not apply in the event of any repair if DRENCH EUROPE LTD had not been informed accordingly and it was not carried out under DRENCH EUROPE LTD authorisation/supervision. The guarantee will not apply if installation, use and maintenance has not been carried out in accordance with DRENCH EUROPE LTD installation instructions. Damages and breakage of glass are not covered by the guarantee as all glass is used by DRENCH EUROPE LTD conforms to EN12150-1. Fair wear and tear of the product and lime scale and mildew are excluded from the guarantee.
- * Seals, subject to wear and tear are guaranteed only for a period of 12 months. Labour cost are not covered under guarantee unless specifically authorised in writing by DRENCH EUROPE LTD.
- * The benefit of this guarantee cannot be assigned.

- * The guarantee does not cover any further right than those expressed and it does not cover any claim for consequential loss or damage. This guarantee is offered as an extra benefit and does not affect your statutory right as a consumer in any way whatsoever. In the event of a claim under our guarantee, a site visit is required which will be chargeable. This will be refunded in the event that the product is defective or manufactured incorrectly. In the event that DRENCH products are used for Steam or sauna room installations, it must be specified at the point of ordering. Our products in these environments carry a 2 year warranty. In the event that a replacement product is required and the product is not longer available, DRENCH EUROPE LTD will replace it with the nearest available product.
