VALVE EFFICIENCY

JTP brassware uses innovative, cutting edge valve technology to make sure your water reaches you at the optimum temperature every time.

Vernet Efficiency

The CA43 cartridge will provide the best temperature regulation, whilst complying with all current safety standards and marques.

The cartridge is uniquely designed, with an optimised thermostatic element and advanced regulation components.

Safety Assured

Every cartridge features an anti-scald function and this is tested on each cartridge.

Multi Use

Vernet have developed a single geometry that can be used in many cartridges from baths, showers, thermostats and various flow capacities. The standard temperature range 15-60°C (59-140°F) but other temperature ranges can be accommodated for upon request.

Longer Life

The advanced thermoplastic polymer inhibits the build-up of limescale, thus, extending the life of the cartridge.

Pre-set Temperatures

Specific temperatures can be pre-set within the cartridge so no test rig is required in the valve.

Isolating Valves

JTP concealed valves are installed with isolating point for ease of maintenance when changing cartridges. The water can be isolated from the valve itself to save time and money.

All our products go through rigorous quality assurance processes so we can assure they reach the quality standard that allow us to offer a 15 year guarantee.

FLOW REGULATORS

JTP offers a range of affordable water saving devices and flow regulators to help you use water more economically.

Flow regulators control the flow of water by responding to signals generated by independent devices like flow meters or temperature gauges fitted inside showers and taps. They are manufactured using certified materials to avoid splash and maximize water and energy savings.

There are so many reasons we need to be mindful of our water usage – the huge demands placed on our water supplies have caused the government to launch legislation regulating the flow of water supplied by taps and showers in new homes.

Equally, we all want to be kinder to the environment by using water efficiently to contribute to a greener future. Conserving water is good news for both the planet and our pockets, as reducing water consumption helps us to save money on household bills.

All of our water saving devices and flow regulators conform to new legislation and come with Water Regulation Advisory Scheme approval to reassure you of their eco credentials.

LP 0.2	- 0.2	bar pressure	(very low pressure)
MP 0.5	- 0.5	bar pressure	(medium pressure)
HP 1	- 1	bar pressure	(high pressure)
HP 2	- 2	bar pressure	(high pressure)
HP 3-5	- 3	bar pressure	(high pressure)

Please refer to this pressure guidance on each of our products

All the below constant flow controls reduce dynamic pressure avoiding splash and maximise the water/energy saving and system balancing. They are produced from materials which have certification meeting the requirement of BS5490 "Materials for use with contact to potable water"

6 Prices and Payment terms

6.1 The price of the Goods shall be the price set out in the Order, or, if no price is quoted, the price set out in the Company's published price list in force as at the date of delivery.

6.2 The price of the Goods:

(a) excludes amounts in respect of value added tax ("VAT"), which the Buyer shall additionally be liable to pay to the Company at the prevailing rate, subject to the receipt of a valid VAT invoice; and

(b) excludes the costs and charges of packaging, insurance and transport of the Goods, which shall be invoiced to the Buyer.

6.3 The Company may invoice the Buyer for the Goods on or at any time after the completion of delivery.

6.4 The Buyer shall pay the price of the Goods no later than 30 days of the date of invoice relating to the Goods. All payments shall be made in full, without deduction in respect of any counter claim. The Company may at any time, without limiting any other rights or remedies it may have, set off any amount owing to it by the Buyer against any amount payable by the Company to the Buyer.

6.5 If the Buyer fails to comply strictly with the payment obligations set out in this Condition 6, the Company shall be entitled to terminate the Contract or suspend any further deliveries of Goods to the Buyer (whether or not such deliveries are to be made pursuant to the same order as the Goods in respect of which payment has not been

made). Interest will be payable on any overdue invoices at the rate of 5% over Barclays bank base rate per annum, until payment is received.

7 Risk and Title

7.1 The risk in the Goods shall pass to the Buyer on completion of delivery.

7.2 Title to the Goods shall not pass to the Buyer until the earlier of:

(a) the Company receives payment in full (in cash or cleared funds) for:

(i) the Goods, and

(ii) for any other Goods that the Company has supplied to the Buyer,

in which case title to the Goods shall pass at the time of payment; and

(b) the Buyer resells the Goods, in which case title to the Goods shall pass to the Buyer at the time specified in Condition 7.4.

7.3 Until title to the Goods has passed to the Buyer, the Buyer shall:

(a) store the Goods separately from all other goods held by the Buyer so that they remain readily identifiable as the Company's property;

(b) not remove, deface or obscure any identifying mark or packaging on or relating to the Goods;

(c) maintain the Goods in satisfactory condition and keep them insured against all risks for their full price from the date of delivery;

(d) notify the Company immediately if it becomes subject to any of the events listed in Condition 10.1; and

(e) give the Company such information relating to the Goods as the Company may require from time to time.

7.4 Subject to Condition 7.5, the Buyer may resell or use the Goods in the ordinary course of its business (but not otherwise) before the Company receives payment for the Goods. However, if the Buyer resells the Goods before that time:

(a) it does so as principal and not as the Company's agent; and

(b) title to the Goods shall pass from the Company to the Buyer immediately before the time at which resale by the Buyer occurs.

7.5 If before title to the Goods passes to the Buyer the Buyer becomes subject to any of the events listed in Condition 10.1, then, without limiting any other right or remedy the Company may have:

(a) the Buyer's right to resell the Goods or use them in the ordinary course of its business ceases immediately; and

(b) the Company may at any time:

(i) require the Buyer to deliver up all Goods in its possession that have not been resold, or irrevocably incorporated into another product; and

(ii) if the Buyer fails to do so promptly, enter any premises of the Buyer or of any third party where the Goods are stored in order to recover them.

8 Warranty

8.1 The Company warrants that, subject to the other provisions of these terms, upon delivery:

(a) the Goods will be free from material defects in design, material and workmanship; and

(b) the goods will be reasonably fit for any particular purpose for which the Goods are held out by the Company.

8.2 The Company shall not be liable for a breach of any of the warranties in Condition 8.1:

(a) Unless the defect is discovered within 7 days of the date of delivery and the Company is given written notice of the defect within 7 days of it being discovered;

(b) The Buyer makes any further use of the Goods after giving notice of the defect to the Company;

(c) If the Buyer fails to adhere to the terms of payment set out in these Conditions;

(d) Unless after discovery of the defect the Company is given a reasonable opportunity to inspect the goods before they are used, fixed or interfered with in any way and the Buyer (if asked to do so by the Company) returns such Goods to the Company's premises at the Buyer's cost for the examination to take place there. If, following such inspection by the Company, the Company accepts that the Goods do have a defect the Company shall refund to the Buyer the reasonable cost incurred in returning such Goods to the Company. It is acknowledged that the costs of suspending works are relevant to the determination of what is a reasonable opportunity and this clause shall not apply to any works affecting the Goods which it may be reasonably necessary to carry out in the interests of safety and/or as emergency measures;

(e) If the defect arises as a result of the Goods being used for a purpose other than that specified to or by the Company;

(f) If the defect arises from fair wear and tear; and/or

(g) If the defect arises from the Buyer's negligence, misuse, alteration or repair of the Goods, failure to follow British Standard or industry instructions relevant to the Goods, storage of the Goods in unsuitable conditions or use of the Goods in abnormal working conditions.

8.3 Subject to Condition 8.2, if any of the Goods do not conform with any of the warranties in Condition 8.1 the Company shall at its option repair or replace such Goods (or the defective part) to refund the price of such Goods provided that, if the Company so requests, the Buyer shall at the Company's expense return the Goods or part of the such Goods which is/are defective to the Company.

8.4 If the Company complies with Condition 8.3 it shall have no further liability for a breach of any of the warranties in Condition 8.1 in respect of such Goods.

8.5 If the Goods are supplied manufactured or processed to information or a design supplied by the Buyer or as approved by the Buyer or any third person nominating or specifying the Goods then:

(a) Subject to Condition 9.1, the Company shall not be under any liability for damages howsoever caused or under Condition 8.3 as the case may be, except in the event of:

(i) Fraudulent misrepresentation by the Company, or

(ii) Misrepresentation where the representation was made or confirmed by a person authorised to sign on behalf of the Company, or

(iii) Non-compliance with such information, or

(iv) Breach of a written warranty signed by a person authorised to sign on behalf of the Company that the Goods are fit for that purpose.

(b) The Buyer will unconditionally, fully and effectively indemnify the Company against all losses, damages and costs on an indemnity basis and expenses awarded against or incurred by the Company in connection with or paid or agreed to be paid by the Company in settlement of any claim for infringement of any intellectual property rights of any other person.

8.6 If the goods are supplied by a reference to information provided by an authorised person on behalf of the Company then, subject to Condition 9.1, the Company shall not be under any liability for damages howsoever caused or under Condition 8.3 except in the proportion and to the

extent that such damages have resulted primarily from the Company's breach of contract or negligence.

9.3 The Buyer will unconditionally, fully and effectively indemnify the Company against all losses, damages, penalties and costs on an indemnity basis and expenses awarded against or incurred by the Company in connection with, or paid or agreed to be paid by the Company in any settlement of any claim by any third party arising from the supply or use of the Goods. This indemnity will be reduced in proportion to the extent that such losses, damages, penalties, costs and expenses are due to the Company's negligence.

9.4 Subject to Conditions 9.1 and 9.2, in any event the Company's total liability for any one claim or the total of all claims arising from any one act of default on the Company's part (whether arising from the Company's negligence or otherwise) shall not exceed twice the amount of the price payable under this Contract.
