The bathroom of tomorrow: Our Green Vision

Wellness or climate protection? Our bathroom requirements compete with the growing need to conserve water and energy. An internal conflict for all of us. But does it have to stay this way? No. Hansgrohe's Green Vision separates hygiene and wellbeing, thus enabling unlimited, almost waterless regeneration. The concept consists of two bathroom platforms: **BASE** is there for personal hygiene, while **SPHERE** is a space for mental retreat. Our Green Vision has real future potential. Even today, the technical innovations of the individual modules are already being incorporated into product development for the AXOR and hansgrohe brands.

90%

less water consumption,
less energy consumption,
and less CO₂e emissions
in the bathroom.

Dream bathrooms

For incomparable water experiences, we at hansgrohe don't think in terms of just the products – we transform individual elements into holistic bathroom experiences. We offer furniture, ceramics, and mirrors alongside mixers, showers, and accessories. This creates perfectly coordinated, interactive environments for individual tastes. Use our interior design examples for inspiration. And enjoy the many benefits of purchasing everything from one supplier.

Start planning now with the hansgrohe Inspirator Tool.

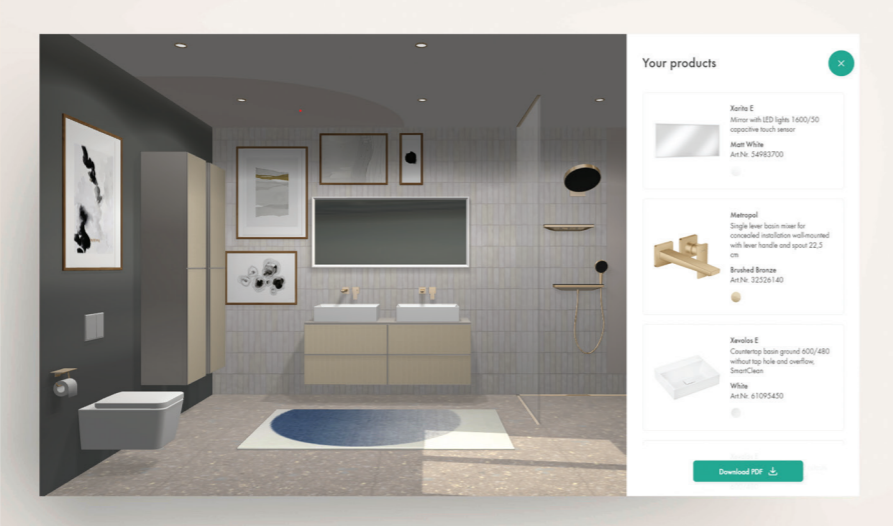

What does your dream interior look like? Use our Inspirator Tool to design the bathroom of your dreams in 3D. Create an oasis that fully reflects your taste by choosing from a range of styles, materials, and colours.

How to create your dream bathroom in a few simple steps:

Find inspiration here.

- 1 Choose your style**
Natural? Minimalist? Family-friendly? Tell the planning tool exactly what you want.
- 2 Select the floor plan, walls, flooring, and bathroom products**
Compose your interior design however you like and with matching solutions in the washplace, showerplace and toilet area.
- 3 Make dreams come true**
Send your dream combination to a retailer and make your new bathroom a reality together with sanitation experts.

Bring your very own dream bathroom to life.

Head over heels in love with water?

This Design lovers minimalist bathroom has been created to suit your personal taste and create lasting memories. This is a place where you can enjoy emotional water experiences and maximum comfort – with no barriers. The bright, timeless space creates a sense of warmth and wellbeing through the use of different surface finishes, shapes, and materials.

Standing in the rain has never felt so good.

Rainfinity showers win awards and set trends in bathroom design. The shower system covers you with a PowderRain spray cascading from the overhead, shoulder, and hand shower. Thousands of micro-droplets wrap you in a coat of wellbeing. Design fans appreciate the elegant shapes, integrated shelves, and premium quality. The FinishPlus colour used to create this shower ambience is called Brushed Bronze.

A bathroom is defined by streamlined shapes.

Everything is linear and arranged as if on a gallery wall. The result? Framings that immediately stand out to art lovers. The geometric Metropolis mixers create additional structure and are wall-mounted to provide lots of elbow room.

The large Xarita E mirror with LED lighting frames you in a flattering light and creates depth. Its smart functions can be activated intuitively, as if on a touchscreen. The room is waiting for you to add personal touches to it – the objects merely act as inspiration for your journey with the hansgrohe bathroom.

Peter Ippolito, architect of the design lover bathroom

“We’ve designed this bathroom for individuals who value art and design. The streamlined shapes and timeless straight lines are just asking to be enriched with personal items.”

Dream bathroom for anyone with children

Because family is the greatest adventure

This shower system offers deeply relaxing moments with PowderRain – and little ones a tremendous amount of fun. The Jocolino children’s shower can be attached or detached at any time.

Do you live with a gang of little rascals and are never safe from surprises? Wonderful! This colourful bathroom is inspired by the wishes and needs of families. In day-to-day life, with a versatile, functional, and ecological concept behind it. It’s not a status symbol – it’s wanting to be filled with life. Your life.

Step into a delightful paradise of wellbeing.

Step into a delightful paradise of wellbeing where the only rule is to embrace positive energy and joy, featuring the Pulsify S Showerpipe that transforms your showering experience into a luxurious escape, complete with an integrated shelf for all your bathroom essentials!

Natural materials, smart storage options, and a playful use of colours and plants make this room the perfect family bathroom.

Magic cleaning trick!
The SmartClean glaze for easy cleaning.

This is where design ceramics meet economical mixer technology and furniture brimming with storage space. The Xelu Q washbasin makes everyday family life run so much more smoothly. The softly shaped inner basin offers plenty of space as the SoftCube shape is harmoniously coordinated with the Xelu Q vanity unit. The bathroom furniture with intelligent dividers in the drawers allows you to organise everyday life with a smile. Tecturis S basin mixers with CoolStart and EcoSmart+ help you to cut down on consuming valuable resources. Certified raw materials and the timeless style are a clear commitment to more sustainability, every day.

Peter Ippolito, architect of the family bathroom

“In this bathroom, we have created a lively, natural, and homey place of wellbeing for families who see their home as a source of joy, serenity, and security.”

Example calculation: A four-person household that heats water with gas can expect the following positive results when using these bathroom furnishings: Costs can be cut by up to £132* per year with the Tecturis S 150 Fine EcoSmart+ / CoolStart basin mixer and by up to £406* per year with the Pulsify S 260 2jet EcoSmart Showerpipe.

* Calculation based on the following: Four-person household in the UK, shower time of 5 min per day and per person, 365 days per year. The costs for the calculation are £0.15 per kWh for gas and £5.50 per 1000 l for water. Compared to hansgrohe products without EcoSmart and CoolStart.

Dream bathroom for world explorers

Feels like a vacation – 365 days a year

Eco technology without compromising on comfort.

The Tecturis E mixer with EcoSmart+ makes a bold design statement and features sustainable inner workings: It consumes up to 20% less water compared to standard EcoSmart mixers – without compromising on comfort. The water can be stopped and started and the temperature set using the Select button on the edge of the basin.

Welcome to the wellbeing wonderland. This place only has one rule: Positive energy and joy for all! The Pulsify S Showerpipe is made to free individuals from their routines and enable them to enjoy glorious and indulgent showering. A shelf is integrated into the thermostat to ensure all bathroom toiletries are within reach.

The Xelu Q bathroom furniture pieces look elegant in Diamond Grey. Soft-close mechanisms and structured interiors ensure a relaxed bathroom experience. A slim space-saving siphon creates even more room for bathroom items.

Matt Black, masculine, micro-soft

The Pulsify E overhead shower in the square model pampers you with PowderRain. An all-round pleasant water experience – almost like being in the ocean. The purist ShowerSelect Comfort concealed thermostat is visually striking and enables users to intuitively operate all shower elements.

In the hansgrohe design language, “Q” means geometric design with rounded edges. So the rimless EluPura Q toilet can be perfectly paired with the Xelu Q wash basin, for example.

Peter Ippolito, architect of the world explorer bathroom

“A bathroom for friends of the modern, tidy interior. The distinctive ambience is created through the unique combination of shapes, colours, and materials.”

Dream bathroom for fans of industrial

For the organised days - and chaotic mornings

Want your bathroom to be more than a combination of mixers, ceramics, and tiles? We get it. This is your portal to a world full of inspiration, where laughter and love fill the air. This hideaway has settled into the rhythm of life and celebrates relaxed moments and happy times. This is a place where everyone can charge their inner batteries, leave their cares behind or even cause chaos every once in a while.

HygieneEffect
Glaze against
bacterial growth*

All areas beautifully harmonise in this ambience. The SoftCube design creates a tidy framework for the wash basin, mirror, and toilet. The Vernis Shape EcoSmart Showerpipe and the accessories are designed in Matt Black and round off the bold look. As does the Rebris E mixer, which puts people in good spirits at the washplace. Did we mention it's resource-efficient thanks to EcoSmart+ and CoolStart? The turquoise wallpaper adds radiance to the room, while the grey console and dark XXL tiles provide contrast and ground the space.

Practical bathroom solutions in a confidently stylish ambience

The Showerpipe consists of an overhead and hand shower plus a thermostat. The cubic design elements are timeless classics that lend the room its charm. Concrete-effect plaster separates the shower from the rest and gives it a spacious feel. Main take-away: Emotions are allowed to be fully felt in this dream bathroom.

Your bathroom becomes a feel-good oasis with the Vernis Shape EcoSmart shower pipe. The stylish RainDrain shower channel ensures smooth drainage in the floor-level shower.

● — ● — ● Price level

Daddy Steve and daughter Emma: Both fans of the industrial style

“It’s often chaotic at our place. But you don’t really notice it thanks to the clear structure of the bathroom. I get plenty of moments of tranquillity here – especially under my dream shower.”

Plan your dream washplace step by step

1 Measure your washplace and define your design style

First, a list of measurements is required. Once the available space has been measured, you can define the design style. Modern or traditional? If possible, think about the design concept for the entire bathroom to keep the style consistent. Then find the perfect ceramics.

2 Determine the wash basin's installation type, size, and shape

From handrinse basins in the guest bathroom to double wash basins, the hansgrohe range includes different types, sizes, and designs. It looks harmonious when the washplace and toilet area all feature products in the same style, for example SoftCube (Q) or Round (S). We also offer universal shapes that look good wherever they are. It goes without saying that all products can be matched to suit personal taste.

3 Find the perfect wash basin furniture

Choosing furniture that has been perfectly coordinated with the wash basin creates an architectural design unit and extra storage space. The size and shape of the vanity unit needs to match the wash basin and suit the installation type, and its surface finish needs to work well with the bathroom's interior.

4 Arrange a tidy system for the furniture

hansgrohe bathroom furniture can be fitted with IntraStoris, a smart interior divider solution that efficiently organises all drawers and cabinet compartments.

5 Add a matching mirror

Xarita and Xarita Lite are high-quality framed, practical helpers for all washplace routines as well as being atmospheric light sources in the bathroom. They can be conveniently operated via a wall switch, IR sensor or capacitive touch sensor.

6 Select the perfect mixer for the ceramics

For perfect water experiences, the basin mixer needs to be a great fit for the wash basin. You can find our recommendations for dynamic duos under hansgrohe ExcellentFit. For an overall aesthetic appearance, we recommend emulating the shape and colour of the mixer in the shower and bath tub.

7 Add accessories

All that's left is the soap dish, toothbrush cup and other accessories. Find the perfect finishing touches for the washplace with matching accessories from the AddStoris or WallStoris ranges. Tip: Coordinate the accessories with the colour of the mixer.

Different shapes, types, and sizes

Delicate countertop vanity or spacious double wash basin

hansgrohe ceramics impress people with their beautiful geometry and high quality. Our shapes and designs meet all needs, and our wash basins work well with mixers, mirrors, toilets, and accessories with the same letter in their brand name. People are, of course, free to also create any combination to suit individual tastes.

hansgrohe wash basins with the design suffix “E” in their brand name feature clean lines. This design is linear, bold, and elegantly streamlined. This is the style of the ceramics in the **Xevolos E** range, with their large inner basin and plenty of shelf space for maximum comfort.

With **Xuniva** countertop basins in four different shapes (below), there are so many design directions to go in.

Q equals SoftCube design with rounded corners.

S equals round, flowing, and organic design.

D equals oval elegance with elongated curves.

U equals RaceTrack with dynamic curves.

hansgrohe ceramics in the Q design are linear and geometric with rounded edges. With its large tap hole bench, the Xanuvia Q wash basin provides plenty of space for bathroom items and room to move during all routines, while the rim prevents water from overflowing.

Wash basins with plenty of practical storage space

Models such as Xelu Q impress users with their slimline design and softly rounded wash basin. They offer plenty of space to store items on the tap hole bench, while models with a side shelf create additional room so that the important things are always within reach. Available in many sizes.

Long-lasting joy with our products

In addition to the legal warranty, hansgrohe offers a voluntary manufacturer's guarantee of 20 years on ceramics.

Easy to clean

SmartClean

High-quality glaze to prevent lingering dirt particles. For more hygiene and less cleaning effort.

Storage space, redefined

A strong look meets maximum comfort. With furniture designed to match our wash basins, mixers, and mirrors, the dream of the perfect washplace can become reality. Features such as soft opening and closing as well as smart interior dividers help you to get through day-to-day life with a smile.

The Xelu Q wash basin is made to fit this interior with its Xelu Q vanity unit in Dark Walnut. The towel holder and handles match the Tecturis S mixer in Chrome. Mirror: Xarita S.

The variety of hansgrohe furniture

A narrow vanity unit for the small countertop basin or an elegant console solution with plenty of shelf space? High Gloss White, Matt Diamond Grey, Natural Oak or Dark Walnut? We can offer you a wide range of products with different sizes and surface finishes. We also make towel holders, shelves, and feet in Chrome, Matt Black, and Matt White.

Wash basin and furniture combinations

Vanity unit for wash basin

Vanity unit for consoles and countertop vanities

Tall and mid-height cabinets

Where exactly are people supposed to store all the tubes, bottles, towels and other items that live in the bathroom? This is a recurring theme, especially in small bathrooms. The tall and mid-height cabinets are made of a durable material and perfect for keeping things tidy and at a minimum. And they're available in the same colour scheme as the vanity units. Please read the hansgrohe care instructions to ensure the furniture always remains beautiful and moisture-resistant.

Taste isn't a matter of layout.

Small bathroom made large

We know many of our customers need to make do with just a few square metres of bathroom space. But even these areas can be transformed into a refuge for relaxation. Furnishing tricks, creative hacks, and a clever choice of products really help here. You'll be surprised how great, appealing, and tidy a mini-bathroom or small guest toilet can look!

Stefan Lindheimer, Head of Product Management Bathroom Interior Categories

“hansgrohe can transform even small bathrooms and guest toilets into a feel-good oasis. Furniture pieces with storage space keep things tidy, while special designs and formats provide room to move and FinishPlus colours add creative accents.”

A harmonious colour concept and perfectly coordinated shapes can really open up a small bathroom and make it shine. Big picture: The washplace and toilet look fantastic in a streamlined, rounded design. Whether in Brushed Bronze or Chrome, the basin mixer, bathroom accessories, and individual decorative elements create elegant accents. And to top it all off, the LED mirror puts people and their surroundings in the perfect light.

Our guest bathroom for lovers of detail

		code no.	RRP Price (inc VAT)
1	Xarita E Mirror with LED lights 360/50 IR Sensor	54999700	£870
2	Tecturis S Single lever basin mixer 80 CoolStart EcoSmart+ without waste set	73301140	£253
3	Xelu Q Handrinse basin with shelf right 360/250 with tap hole without overflow, SmartClean	61084450	£244
4	Xelu Q Vanity unit High Gloss White 340/245 for handrinse basin, door hinge left	54011700	£635
5	AddStoris Liquid soap dispenser	41745140	£95

7	AddStoris Toilet paper holder with cover	41753140	£108

Xelu Q wash basins and furniture are beautiful and practical, even in small sizes. Lots of bathroom items can call the glossy white vanity unit home, and the narrow handrinse basin features a shelf on the right. The Tecturis S mixer has a slimline design, making it the perfect fit.

More small-scale bathrooms

How does a mini-bathroom become your favourite room in the house? With a bright atmosphere, sophisticated interior, and high-quality bathroom design that really resonates, even in a very small space.

Long and narrow bathrooms

Even unusual layouts, such as small but mighty long and narrow bathrooms, can be made to look bright and tidy. They are often found in older buildings and are usually very dark. But with skilful renovation and the right furnishings, they can be transformed into a light, airy, and tasteful oasis.

Left: Bright colours, natural materials, and a large Xarita Lite S LED mirror bathe the bathroom in a cosy atmosphere. A Vernis Blend shower set provides showering enjoyment. The EluPura Original toilet and bidet are designed to match the Xanuia Q wash basin and create plenty of room to move. Single-hole mixer: Rebris S.

Five modern space-saving tips and tricks

1

Open, welcoming design

Having subtle wallpaper or walls painted in pastel shades creates a charming and bright ambience. Using colour to accentuate zones in the shower or at the washplace ensures a cosier atmosphere, while matching tiles on the walls and flooring suggest spaciousness. Avoid room dividers or a dark design throughout.

2

Good lighting

If you have to get by without windows, and therefore sunshine, you can create a bright and breezy atmosphere with the right lighting. LED mirrors become mood-boosters, while also making the space look bigger. Different lighting zones add warmth and depth. Avoid dim lamps and a lack of mirrors.

3

Sophisticated interior design

Miniature bathrooms need intelligent solutions, such as furniture with lots of storage space, so that anything “unruly” is kept out of sight. Ceramics, furniture, and mirrors designed in the same shape, e.g. round, look harmonious. Natural materials such as wood, bamboo or stone add elegance. Avoid XXL furniture, mismatched design, and low-quality products.

4

High-quality modern design

Minimalist mixers and showers, wall-mounted toilets, and linear shelves: The more stripped-back the look, the more room there is to breathe, move, and feel good. With narrow wash basins, a shelf around the tap hole provides space. Avoid ornate mixers, outdated shower design, and chunky wash basins.

5

Appropriate accessories

From soap dispensers to toilet brush holders, shelves to niches recessed into the wall: hansgrohe offers accessories in coordinated shapes and colours. AddStoris, WallStoris, and XtraStoris keep everything nice and tidy and in its place for a stylish overall look. Textiles in similar tones also add a sense of calm to the space.

FinishPlus surface finish design

Add colour to your bathroom!

FinishPlus colours create unique accents in the shower, at the washplace, and in the toilet area. A bronze-coloured shower system is a design highlight, a matt white mixer is a fresh-faced head-turner. hansgrohe thermostats and showers can be matt black or gold-coloured. If the colour of the wallbar, shower hose, and accessories matches, it adds style to the whole bathroom – and makes it look new.

Matt Black
provides a contrast and takes the bathroom design back to basics.

Matt White
is versatile and creates unconventional freshness.

Brushed Bronze
exudes subtle flair and looks elegant with white and natural tones.

Chrome
is a timeless classic that makes the bathroom shine.

Polished Gold Optic
enchants lovers of extravagant design and brings glamour to the bathroom.

Brushed Black Chrome
has an air of sophistication thanks to its dark appearance.

Planning your Dream Bathroom

WASH BASIN of your choice

After establishing the desired design style and assessing the available space in your wash area, the next step involves selecting an ideal size, shape, and type of basin that complements your design concept.

wall hung

countertop

above counter

undercounter

Choose the preferred basin

Explore the preferred installation variant of your choice with the universal and flexible Xuniva and Xanuia lines. Alternatively, choose from the expansive range of Xevolos or Xelu basins, available in dimensions spanning from 360mm to 1200mm.

S, D & U have **smooth flowing and rounded** designs. Q combines **soft and straight lines** while E concentrates on **edges and clear contours**.

Choose the desired number of tap holes

Tailor your selection based on whether a wash basin with or without tap hole is required for your specific setup.

Which design language speaks to you?

With our products, you can usually choose between three geometric shapes Q, S and E, depending on the product type. You also have this freedom of choice with most of our showers and mixers and wash basins. In addition, Xuniva line provides 2 other shapes - U & D to offer you a wider selection option for the wash basins.

When planning your bathroom, you may decide on a single design language or combine as you please.

Furniture perfectly matching your wash basin

Choose your matching vanity

Either pick vanity unit for basins or vanity unit for console to combine with your selected basin. Ensure you choose a complementary size that fits and the colour for the furniture that matches your overall design theme.

Xevolos E and Xelu Q come with perfectly matching basins in various sizes. Whether it's a vanity unit for basin, vanity unit for console, tall cabinet, or semi tall cabinet - you can choose not only between different sizes, but also between different surface colours. Furthermore, you could add on optional IntraStoris interior storage system to organise your drawers with efficiency.

Choose your interior storage

Thanks to the space-saving siphon, there's no cutout in the upper drawer(s), which gives more storage space. Therefore, you can keep your drawers perfectly organised with IntraStoris, the SmartStorage solution. The generous shelf storage makes the organisation of your daily family life much easier.

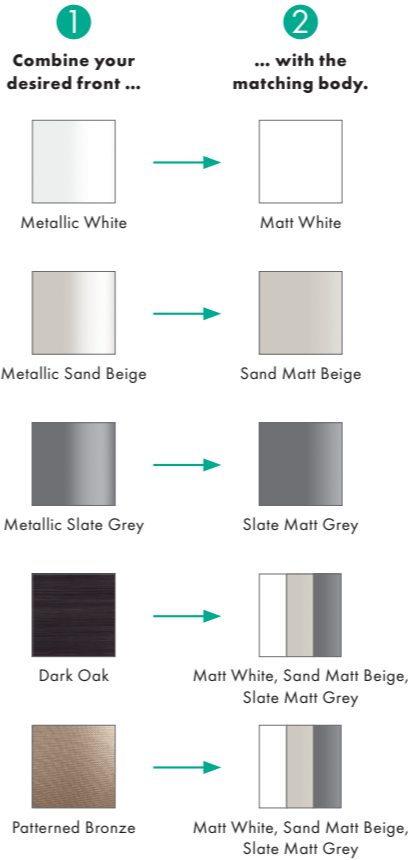

Xelu Q, IntraStoris

Xevolos E, IntraStoris

Choose the desired design and surfaces

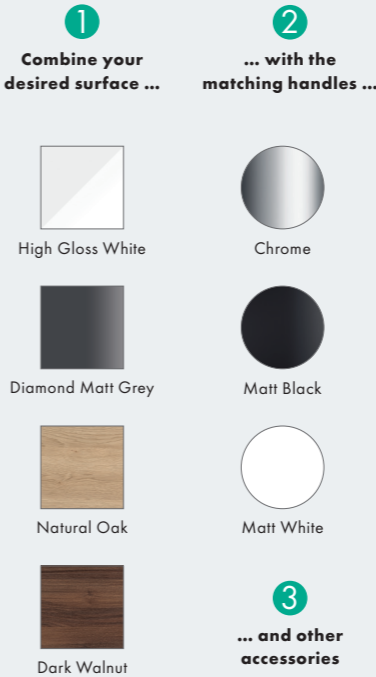

The perfect **furniture** in just two steps

Xevolos E: Three body colours and five inlays.

Combine your desired inlay with the matching body. To have the two-tone design, all three body surfaces can be combined with the Patterned Bronze and Dark Oak inlays. Or create a monochromatic character by combining the body surface with its specific metallic inlay, for example, Matt White with Metallic White.

The perfect **furniture** in just three steps

Xelu Q: Four furniture body colours and three finishes for accessories. Xelu Q furniture can be customised to your preferences. Choose between High Gloss White, Diamond Matt Grey, Natural Oak and Dark Walnut. Each surface can be combined with different handles, shelves, towel holders, and feet in Chrome, Matt Black and Matt White.

Choose the right installation type for the wash basin

Basin mixers can be freestanding or mounted on a wash basin or wall. Their water spray can cascade down into a small, large, deep or shallow vanity. hansgrohe has the fitting solution for every situation and every requirement. Let's make the washplace more than somewhere to brush teeth or wash hands.

Freestanding: Tall mixer behind a countertop basin

Here a Vivenis single-hole mixer in Matt White stands tall behind a Xuniva S countertop basin – a graceful installation option that looks lovely.

Freestanding: Mixer on wash basin with tap hole bench

Here an exclusive Finoris single-hole mixer is installed in the tap hole of a Xevolos E countertop basin – a traditional design that offers additional storage space.

Wall mounting: A concealed installation mixer above the ceramics

Here the bold spout design of a Metropol wall-mounted mixer is operated using controls – an elegant option that guarantees plenty of room to move.

Pulling the plug in the wash basin:
The drain valve can be opened and closed using a pull rod or push-open technology.

hansgrohe ExcellentFit: Wash basins and mixers that work well together

It's annoying when the wash basin and mixer aren't a good fit – it can cause water to splatter where it shouldn't or it can create a look that isn't quite right. So how do you figure out what works well and looks good together? We want our customers to have user-friendly dream combinations, so we have tested a variety of mixer and wash basin duos and combinations with other manufacturers' products at our Technical Service Center. Those that pass the test are listed in hansgrohe ExcellentFit, the matrix of all washplace dream teams. Download this information from our website now.

Bringing together what belongs together

hansgrohe mixers are available in different ComfortZone heights to allow plenty of space between the wash basin and mixer and ensure everyone has the perfect water experience when washing their hands. What a way to wow with bathroom design. From highrisers for countertop basins to wall-mounted basin mixers, you can find the perfect pairing quickly and easily with hansgrohe ExcellentFit.

XEVOLOS E

Architectural design, flawless quality

Xeolos E wash basins are all about sophisticated aesthetics and premium quality. They have an impressive geometric design, narrow edges, and a seamless look. The elegant and minimalist overall appearance is emphasised by the inner basin without overflow hole and an integrated ceramic drain cap.

These ceramics create room for all washplace needs. We offer widths of 360 to 1200mm and the option to choose one or two wash basins. The quality and style of the mixers from the architecture-inspired Tecturis E, Finoris, and Metropol ranges are a particularly good fit here.

Xevolos E bathroom furniture: Many models, exceptional look

The architectural design language is echoed in the cubic look of the Xevolos E furniture, which is made to match the wash basins in the range. They come in different sizes and with different body finishes and front inlays so that unique accents can be created – for example, with glass, wood decor or ceramics. Thanks to the space-saving siphon, the top drawers do not need a cut-out, which creates more storage space. The user-friendly PushOpen and SoftClose mechanisms make the drawers even more comfortable and convenient to use.

Xevolos E | Waste and overflow set

Xevolos E Waste and overflow set for eccentric actuation for washbasin

Features

- 50005000 - The optionally available concealed overflow system takes over the overflow function and is mounted invisibly under the basin. This prevents the water from overflowing - without any visible overflow hole at all.
- operation via lever rod
 - for washbasins without overflow
 - connection dimension G 1 ¼
 - with overflow

for	finish	on stock	code no.	RRP Price (inc VAT)
For use with all Xevolos E handrinse basins and washbasins - except handrinse basin 360/250	White	✓	50005000	£101

XELU Q

For more style and storage space

Xelu Q wash basins are stylish all-rounders in the hansgrohe SoftCube shape. The slim edge and softly shaped inner basin make them eye-catching modern features in single, shared or family bathrooms. And the large tap hole bench creates plenty of shelf space. We offer the ceramics in six widths from 360 to 1200mm. Tecturis S, Vivenis, and Talis S are all mixers that work well and look great with these wash basins.

Xelu Q vanity units are the perfect fit for your chosen wash basin. Every detail of their design has been thoroughly thought through. Bathroom items can be hidden out of sight in their large interiors, while the SoftClose function on the drawers ensures they close gently and quietly. Various surface finishes for the bodies and fronts create a washplace with a highly personal touch.

Five steps to unique furniture

Vanity units available with one or two drawers.

Xelu Q | Waste and overflow set

Xelu Q Waste and hidden overflow set for washbasins

Features

- 50005000 - The optionally available concealed overflow system takes over the overflow function and is mounted invisibly under the basin. This prevents the water from overflowing - without any visible overflow hole at all.
- operation via lever rod
 - for washbasins without overflow
 - connection dimension G 1 ¼

for	finish	on stock	code no.	RRP Price (inc VAT)
For use with all Xelu Q handrinse basins and washbasins - except handrinse basin 360/250	 White	✓	50005000	£101

Available for the washbasins of the Xelu Q and Xevolos E series.

Functionality

When the drain valve is closed, the water in the basin rises. When the water level in the basin reaches a certain level, the water continues to flow through the overflow pipe into the drain.

XUNIVA

Water in its most beautiful forms

The iconic geometric shape and the reduced edges add elegance to your bathroom.

With Xuniva countertop washbasins, you can design your bathroom harmoniously and according to your individual ideas. Thanks to the large selection of different shapes and variants, you are sure to find the right Xuniva washbasin for your dream bathroom. The Xuniva product range comprises four different basic washbasin shapes in three different installation variants for use in combination with countertops/worktops and furniture consoles. In addition, for most models you have the option of choosing a washbasin with or without a tap hole deck, giving you flexibility in your choice of mixer. All models are made of high-quality, durable sanitary ceramic, are dirt-repellent thanks to the optional SmartClean glaze, and feature generously designed interior basins.

Whatever you need or want: Xuniva allows you to create the WashPlace of your dreams. Providing countless variations for a unique look.

Regardless of which installation variant you prefer or which your bathroom requires – we have the right washbasin for you. In addition, most Xuniva washbasins are available with or without a tap hole bench, so you can combine your dream washbasin with either a basin mixer or a wall-mounted mixer.

under-counter

above counter

wash bowl

With Xuniva washbasins, you can choose between three different styles of basins, giving you the freedom of choice when planning your ideal bathroom.

- 1 For undercounter basins
- 2 For above counter basins
- 3 For wash bowls

XANUIA Q

Do you crave **seamless and effortless daily routines** that make your day run more smoothly? If so, **Xanuia Q washbasins** are the right choice for you.

Xanuia Q **combine functionality and style** with simplicity and convenience that significantly improves the way you interact with your WashPlace so that, in the end, you will wonder how you ever got along without Xanuia Q.

Xanuia Q washbasins. **YOUR KEY TO GREATER EASE.**

The design of Xanuia Q washbasins follows the principle of "pragmatic simplicity" and harmoniously combines functionality and aesthetics. This simplicity, combined with fine and thoughtful details, embodies the design principles of the hansgrohe brand and is clearly understood and experienced by the user.

If you're looking for a way to **add comfort to your daily routine** at the WashPlace, Xanuia Q's human-centred design is a game changer that enables seamless and effortless daily routines.

If you're looking for a way to add comfort to your daily routine at the WashPlace, Xanuia Q's human-centred design is a game changer that enables seamless and effortless daily routines.

The well-thought-out design of the wash basin line with its signature SoftCube footprint adds a touch of aesthetics to any bathroom, big or small, and matches the radii of Xarita Lite mirrors. The generous inner basin and extensive tap hole bench with the surrounding rim that protects against spillage make life easier for you.

You may opt for a version without an overflow hole if you prefer an even smoother and more seamless look. Furthermore, you can also choose between variants with or without a tap hole, the latter of which enables the use of Xanuia Q with wall-mounted basin mixers. Take your WashPlace to the next level and enjoy a stunning water experience.

Your personal look. **CUSTOMISED FOR YOUR LIFE.**

Whether guest toilet, single bathroom, or family oasis, hansgrohe's portfolio of Xanuia Q washbasins **offers the perfect solution** for your individual living situation.

You can choose from eight available models (360 to 800mm). Depending on your preferred tap setup, you can choose between washbasins with or without a tap hole.

Quality and sustainability

hansgrohe products always have the mission to create a greener world without sacrificing pleasure. Xanuia Q is no exception to this rule. The wash basins are made from natural, recyclable ceramic material and the packaging used for shipping is plastic-free to minimise waste. This means the products generate as little environmental impact as possible today, while hansgrohe continues to prioritise environmentally friendly designs and technologies in the future to preserve the beauty of nature for future generations.

Bring your **WashPlace** to life.
With Xanuia Q by hansgrohe.

Easy cleaning: The rim around tap hole bench prevents water from spilling over while the optional SmartClean glaze facilitates easy cleaning.

Sustainability: Sanitary ceramic made from a natural recyclable material. SmartClean glaze reduces need for cleaning detergents.

Many options to choose from: 8 models available (360 to 800mm) plus ground for countertop installation and compact versions for when space is tight, as well as variants without tap hole and overflow.

Highlights

Installation

Made to fit NoiseReduction

This product comes with a pre-cut soundproofing mat that is tailored to its geometry. This facilitates installation and saves valuable time on the construction site.

Technologies

SmartClean

This special glaze protects the products from unsightly stains. For more hygiene and less cleaning effort in the bathroom. Because cleanliness is a basic requirement for long-lasting pleasure with water.

Finishes

White

ELUPURA AND ELUPURA ORIGINAL

Two beautiful lines, many benefits

Our EluPura and EluPura Original ranges offer the perfect toilets for unique bathroom styles and interiors. Both are available in two design languages: Round (S) and SoftCube (Q). Their rimless design makes them less susceptible to germs compared to standard toilets.

EluPura: Elegant, high quality, and stylish in every detail

These toilets round off the modern bathroom and please discerning design fans. The hidden wall mounting creates a seamless appearance perfect for rooms with a minimalist design.

There is also the option to give all hansgrohe toilets a further upgrade, with comfort features such as SoftClose and QuickRelease as well as special glazes to make the toilet even more hygienic (turn to the next page for an overview).

EluPura Original: Price-conscious and perfect for every room concept

The range includes toilets and bidets for wall-mounted installation as well as floor-standing models. There are also urinals with different solutions for the water supply and accessories such as seats, lids, flushing tanks, and urinal dividers. We make these ceramics in the S and Q designs for more harmony in the bathroom. The attachment is openly accessible to make installation easy.

Long-lasting joy with our products

In addition to the legal warranty, hansgrohe offers a voluntary manufacturer's guarantee of 20 years on ceramics.

EcoSmart

hansgrohe toilets can achieve excellent flushing results with only 4.5 litres per flush (suitable flush tank required). A quick flush, done by pressing the small flush plate button, can even manage with just 3 litres. Good for the environment, good for your wallet!

Simply
sustainable!

The toilet is an essential component in the harmonious design of the bathroom or guest toilet. EluPura toilets blend seamlessly into any room.

Strong performance

hansgrohe flush technologies – powerful, low-noise, efficient

AquaHelix Flush

This sophisticated water vortex technology powerfully and quietly cleans the toilet's inner basin. The flushing process is especially efficient and can achieve excellent results with just 4.5 l per flush (suitable flushing tank required).

AquaFall Flush

Powerful cleaning of the inner basin of the rimless toilet with a symmetrical surge of water. The flushing process is especially efficient and can achieve excellent results with just 4.5 l per flush (suitable flushing tank required).

AquaChannel Flush

Effective flushing of the inner basin with powerful, revolving water sprays. The flushing process is especially efficient and can achieve excellent results with just 4.5 l per flush (suitable flushing tank required).

Comfort features

SoftClose

Toilet cover and seat close softly and silently thanks to the dampers in the hinges.

Quick Release

This hinge system is simple to undo so that the toilet seat can be quickly removed for easy cleaning.

Hygiene features

SmartClean

High-quality glaze to prevent lingering dirt particles. For more hygiene and less cleaning effort.

HygieneEffect

This highly developed glaze prevents bacteria from multiplying on the product (exclusively *Escherichia coli* ATCC 8739 and *Salmonella enterica* ATCC 13076, test ISO 22196: 2011-08). For more hygiene and lasting comfort in the bathroom.

XARITA

A more sustainable view of the world

All Xarita and Xarita Lite mirrors are CE/UKCA compliant, and the mirror glass is 100% recyclable. The mirrors are designed so that individual components can be easily swapped out and replaced. Moreover, the energy class C LEDs have a long service life and excellent colour rendering.

Mirrors

Catch glances and capture hearts

hansgrohe mirrors create feel-good lighting and good spirits in the bathroom living space. The mirror adds the perfect finishing touches to every dream washplace. When it complements the washplace in a harmonious design and format, it becomes a daily mood-booster.

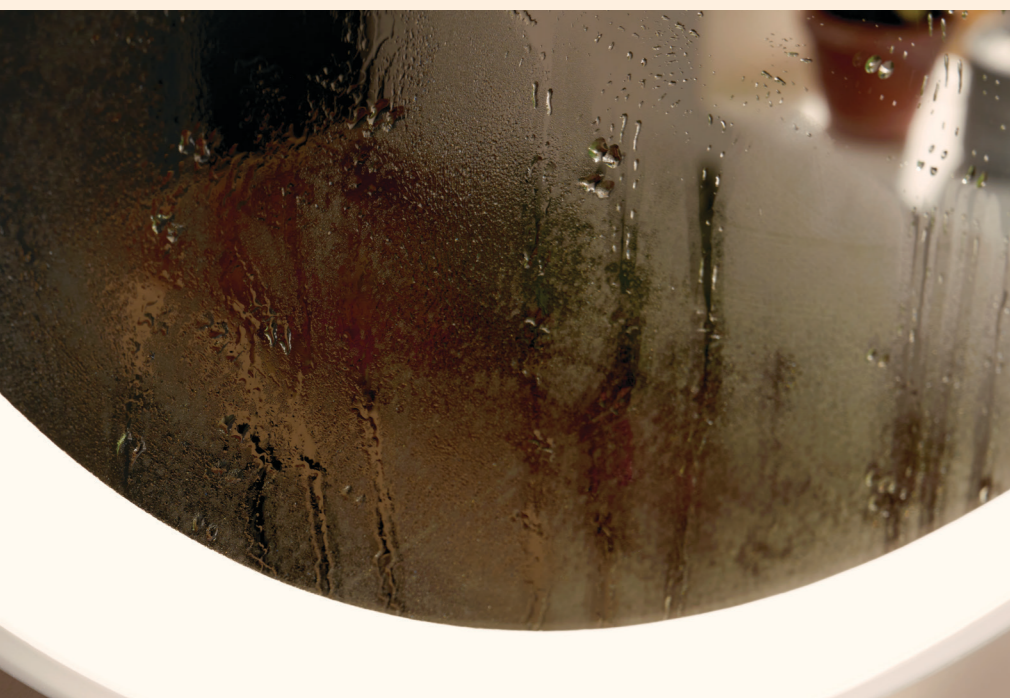

The shape: Unique. hansgrohe makes the Xarita Lite range in Round (S) and SoftCube (Q); the Xarita range in Round (S) and Square (E).

The look: Magnificent. Minimalist design with high-quality frame and exquisite FinishPlus finish. Xarita Lite is available with a Matt White or Matt Black frame; Xarita with Matt White.

The size: Perfect. Made to suit a certain washplace design and specific style preferences.

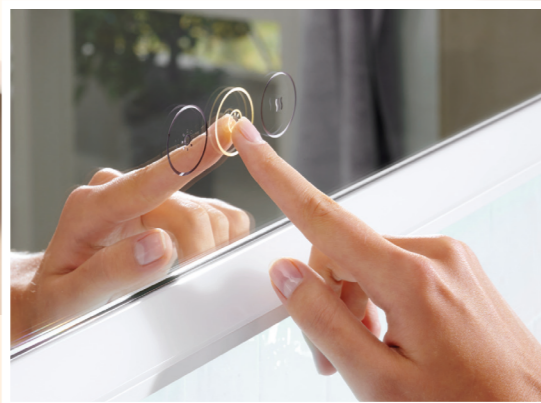

In summary: Beautiful. Xarita and Xarita Lite mirrors are design highlights in the bathroom and ensure harmonious lighting.

Convenient features in hansgrohe mirrors

Defog system

The integrated heating effectively prevents the mirror surface from fogging up – for clear vision.

SmartTouch

Simply lightly touch the icons on the mirror surface to turn various functions on and off.

TouchlessSensor

This lighting is controlled using infrared sensors. One hand motion under the mirror is all it takes.

Other benefits

Forgot to switch off? Don't worry! With our mirrors featuring an infrared sensor or SmartTouch, the auto-off function prevents the lighting and heating from remaining on unnecessarily, which helps to save energy. The memory function repeats the last light setting to ensure people are always bathed in the same light when doing make-up or shaving. In other words, hansgrohe mirrors with this feature have a good memory!

Feel-good dreams in colour

Xarita mirrors have eight atmospheric light colours ("Indirect light" button). One of five dimmable levels, from warm white to cool white, illuminates the washplace ("Direct light" button). Add a combination of Xevolos E wash basin and furniture to create a holistic dream bathroom ambience.

For the rosy moments

Choose from the eight available indirect light colours to change the mood and atmosphere of your bathroom at the touch of a button. All colours can also be dimmed.

XARITA S
MIRRORS

Xarita S | Mirror

Xarita S Mirror with capacitive touch sensor

Features of all variants

- material: mirror glass
 - material frame: aluminium
 - surface material: powder coating
 - MoistureProof: durable material
 - SmartTouch: light control via capacitive sensor, sensor switch in the mirror surface
 - light source: LED, exchangeable
 - direct LED light with 5 different colour temperatures gradations
- indirect RGB LED light: choice of 7 colour tones and 1 white tone
 - colour temperature: 2700 - 6500K
 - LED lifetime: > 50,000 hours
 - direct LED light: energy efficiency class C, indirect RGB LED light: energy efficiency class G
 - stepless dimmable
 - AntiFog: with mirror heating
 - Auto-off function: automatic shutdown for all functions
- with memory function: dimming, colour temperature and RGB LED settings
 - input voltage: 220 - 240V AC / 50/60Hz
 - output voltage: 24V - DC
 - degree of protection: IP44

FINISHING TOUCHES

Create visual harmony with a comprehensive selection of **bathroom accessories** in a variety of high quality surface finishes.

ADDSTORIS

Everything is always beautiful and within reach

Do you love it when everything around you looks as if it came from a single source? Even all the different things you use in the bathroom every day? From toothbrushes and toothpastes to soaps and flannels, from perfumes and creams to razors and shaving foams. Where can all these essential products find a suitable storage spot that's also aesthetically satisfying?

AddStoris is the simplest answer. With an extensive range of accessories in six different surface colours, its flat minimalist design meets all those storage needs as well as matching your bathroom design to create a welcome oasis of wellbeing. From tissue boxes to shaving mirrors, AddStoris blends everything in to your design in a beautifully unobtrusive and uncluttered fashion.

Holistic bathroom
design with
**stylish
accessories**
in six colours.

RAINDRAIN

A sensational sight in the shower

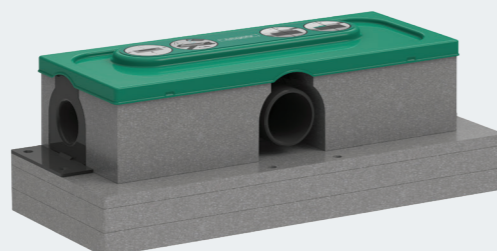

Are you dreaming of a floor-level shower and looking for the icing on the cake with everything in your modern bathroom fully coordinated? With the RainDrain shower drain, you will be able to fulfil your fantasy. With a choice of colours, surface finishes and sensational design, the linear drainage channel will clearly echo your chosen shower style and accessories.

A cohesive bathroom design is key to creating that special feel-good factor and that's particularly so in your shower and bathroom. RainDrain is a sophisticated solution that adds the perfect finishing touch to your choices with a truly harmonious look, hansgrohe quality and of course dependable durability.

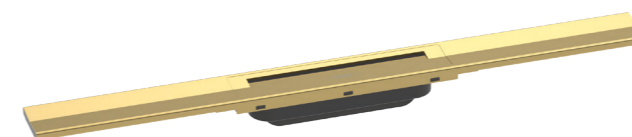

Various surface options include tileable drain covers, enabling the drain to blend seamlessly into a wet-room floor, as well as Polished Chrome, Brushed Stainless Steel, Brushed Bronze, Brushed Black Chrome, Polished Gold Optic, Matt Black and Matt White.

RainDrain: Adaptable to **every shower** and taste.

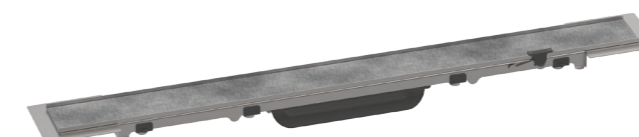

Prevents water damage. The concealed installed base set, uBox universal, is supplied with a factory pre-installed seal liner that is incorporated into the composite seal.

XTRASTORIS

Design that makes itself useful

You value a high quality, elegant design for your dream bathroom. Yet ordinary shelving for your shampoos and care products simply wouldn't fit your design concept. Allow us to introduce XtraStoris wall niches, a clever storage solution that matches the style of the rest of your bathroom but gives all those shower products freedom of movement.

Whether you are renovating your bathroom or planning a new one, you want some well-designed bathroom architecture where nothing sticks out and everything fits perfectly. Your bathroom should be a place of wellbeing that radiates calm and reflects your personal taste. XtraStoris wall niches give all those bathroom products a place to go, making them useful every day at the same time as highlighting your overall design.

Everything nicely accommodated, **matching the preferred style** in your bathroom.

Bathroom ceramics, furniture & mirrors

Technologies

 Anti-Fingerprint	 Anti-fog	 Aqua Helix Flush	 EcoSmart	 Hygiene Effect	
High quality technology against fingerprints. For carefree morning and evening routines in the bathroom.	The integrated defog system effectively prevents the mirror surface from fogging up - for a clear view.	Water vortex technology that cleans the inner bowl of the toilet powerfully but quietly.	Toilet that can achieve excellent flushing results with only 4.5 l per flush (suitable tank required). Good for the environment and the wallet.	High quality glaze that prevents bacteria from multiplying on the product (exclusively refers to the following bacteria: Escherichia coli ATCC8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)).	
 Made to fit NoiseReduction	 Moisture Proof	 Push Open	 Quick Release	 Smart Clean	 Smart Storage
For easy installation, this product comes with a soundproofing mat matched to its shape.	This high quality product is made of durable material, which is suitable for bathrooms.	These drawers and doors are extremely easy to grasp and open. Just give them a short tap.	This hinge system is easy to release. For quick removal of the toilet seat and easy cleaning.	High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.	The clever interior divider system for drawers provides individual and flexible storage space.
 Smart Touch	 Smooth Surface	 Soft Close	 Soft Close	 Touchless Sensor	
Simply touch the icons in the mirror surface lightly and various functions are switched on or off.	The surface of this furniture has a great, uniform haptic. For pleasant touches and a beautiful look.	Drawers and doors close gently and quietly. This is possible by integrated dampers.	WC cover and seat close gently and silently – thanks to dampers integrated into the hinges.	This lighting is controlled via infrared sensors. A hand movement under the mirror is enough.	

Finishes

Ceramics	 White	Handles & Accessories	 Chrome	 Matt Black	 Matt White
Inlay, Body & Consoles	 High Gloss White	 Diamond Matt Grey	 Natural Oak	 Dark Walnut	
Inlay	 Metallic White	 Metallic Sand Beige	 Metallic Slate Grey	 Dark Oak	 Patterned Bronze
Body & Consoles	 Matt White	 Sand Matt Beige	 Slate Matt Grey
